BELGIAN ARMY FIGHTING FOR LIFE BEHIND ANTWERP FORTS

KING ALBERT IS REPORTED TO HAVE BEEN SLIGHTLY WOUNDED

Fire from Big German Guns Is Teriffic and a Portion of the Town Is Said to Have Been Destroyed---Belgians Hope to Hold Out Until Allies Force Prussians to Withdraw ---Situation In France Is Still Unchanged ---Siege of Przemysl Continues.

BULLETIN.

LONDON, Oct. 10, 12:37 a. m.—The Morning Post says that it has been informed by a good authority that Antwerp has fallen.

The official press bureau says it is unable to confirm the foregoing.

Count De La Laing, Belgian minister to Great Britain says he has received no confirmation of the reported fall of Antwerp.

The war chancellors of the allies and the Germans have not seen fit to lift the curtain of secrecy high enough for the public to obtain an insight into the conditions which prevail along the battle line in France.

"There is nothing to report," says the French war office, "except that there has been a lively engagement in the region of Roye, where in the last two days we have captured 1,600 prisoners." That is all. From the British and the Germans came nothing.

Of the situation in the east, the Austrian general staff, in a despatch coming by way of Berlin, reported a complete breakup of the Russian invasion in Hungary and said that the Russian emperor's forces had been cleared from a portion of the Carpathians.

The Russians, in their turn declared, that near the east Prussian frontier in Russian Poland they were still pressing the Germans hard and at several points had gained successes over them.

While one morning newspaper in London has been informed on "good authority" that Antwerp has fallen, neither the British official press bureau nor the Belgian minister are able to confirm the report. The last advices from Belgium had the Germans still hammering away with their artillery against Antwerp. One despatch said 200 big German guns were in operation there. Ostend advices reported thousands of refugees arriving in that city.

A Berlin despatch says that King Albert of Belgium, who has been reported to have left Antwerp at the head of a portion of his troops, has been silghtly wounded.

British aeroplanes again have visited Dusseldorm, Germany. A British official report says an aerial squadron succeeded in blowing up a Zeppelin airship shed in Dusseldorf and destroying a dirigible balloon in it. The three aviators engaged in the raid escaped, but lost their machine.

Austria has temporarily lifted the customs duties on corn, flour and vegetables.

Belgium has protested to the Washington government against Germany's alleged action in commandering all food supplies in Brussels and "reducing the native population to famine."

It is believed in Washington that Captain Le Vert Coleman, who has been in Europe with the American relief commission will be called upon by the war department to explain statements attributed to him in an interview in New York concerning the German army's fighting abilities and commissiariat and alleged atrocities committed by the German troops.

London, Oct. 9.—Belgium once again is the center of military interest, for not only is her army battling for its life behind the fortress of Antwerp, but the long battle line in France has struggled northward until it has crossed her frontier at Armentieres and may yet join the beleagured Belgians.

According to a German report received by wireless from Berlin this evening, railway and telegraphic communication with Antwerp is interrupted. It was reported also that the king of the Belgians had been slightly wounded.

The severing of communications had been expected for the Germans had been directing their attacks at points of ingress to and egress from the city and at the same time dropping shells into the town itself. A portion of the town is reported to have been destroyed. The 42 centimetre guns made short work of the great brialmont forts and lesser ones are now engaged in destroying the city, which, under the provisions of The Hague convention, was given due notice before the bombardment commenced.

Fighting is Desperate.

The extent of the damage done in the city is not known definitely for the only accounts available concerning the bombardment are from persons who watched the battle from a distance. That the fighting is desperate there can be no doubt, for the Belgian army, driven from the first line of forts, took up good positions behind the second line, prepared to offer desperate resistance to the advance of the besiegers.

The defenders, however, even in their well protected entrenchments, are said to be unable to avoid the shell fire, which is described as terrific and which is said to fall always in the right spot. The Zeppelin airships, too, have played their part in the fray and bombs from them add to the terror. It is reported that one of these airships was brought down last night, but the statement originated from a person who said he saw it from a distance.

The German advance through the gap which they had opened in the southeastern section of the outer line of forts has been likened to a prairie fire which devoured every village and building in its path.

The Germans have also forced three passages of the river Scheldt between Ghent and Termonde, their object being to prevent the Belgian army from breaking through and escaping by the narrow strip of Belgian territory between the Scheldt and that portion of Holland which stretches along the coast west of the estuary.

How long the Belgians can hold out against this attack from two sides, which has continued since Wednesday night, no one offers to conjecture. The Belgians hope however, that their field army can withstand the Germans until the allied armies, advancing from the south, force the Germans to withdraw.

Anxiety Regarding Non-Combatants.

Meantime there is great anxiety regarding the non-combatants remaining in Antwerp. Thousands of refugees from the city and surrounding towns are arriving in Holland and England. Already there are half million Belgians in Holland and two or three thousand are arriving daily in England, coming by way of Ostend. Many of these are penniless and dependent on the charity of the peoples of the countries to which they are fleeing. Some wounded also are arriving in England.

King Albert, it is believed, is among those who have left Antwerp. An unconfirmed reports says the queen and the members of the royal family have gone to Ostend. The King's reported departure to Zizaste, near the Dutch frontier would, it is explained, be consistent with the report that the Germans have forced passages of the Scheldt between Termonde and Wetteren, for the King always kept in touch with the more hard pressed of his troops.

Situation Unchanged.

Of the battle in France the German and French reports agree there has been no change in the situation although the French claim to have made some little progress near St. Mihiel and in the Argonne.

Further south the Germans, having withstood the allies attempt to outflank them, have been delivering counter-strokes, first at Roye and Lassigny, where the French tried to get through the German lines of communication, and then at Arras where they again tried to get through Cambrai to the railway line at Lacateau. Before these counter strokes the French had to give ground, which they since claim to have regained.

Failing to break the allies lines, Gen. Von Kluck attempted to outflank them by sending a large force of cavalry around Lens to the rear of the French at Lille. Here the fighting is till going on and no decisive result has been attained.

Meanwhile both armies have withdrawn troops from the center and the weakening of the German line north of the Aisne is said to have allowed the British to make two advances, in one of which the Germans has held for nearly a month.

Much is considered to depend upon the length of the siege at Antwerp. Every day the Belgians hold out is reckoned by the military strategists here as a day gained by the allies.. The strategists argue that as soon as the fortress is captured or capitualtes a German army of 125,000 men will be dispatched to the assistance of Gen. von Kluck and that their numbers will tell.

Except for siege guns the Belgians are declared to be about equal of the besiegers and in a battle in the open, it is argued by some of the war observers, they should be able at least to prolong the battle.

Siege of Przemysl Continues.

The Przemysl fortress in Galicia is undergoing a somewhat similar experience to the fortress at Antwerp, for the siege there continues. The Russian ambassador at Rome, in a report declares the whole town is on fire and that the capitulation of the stronghold is imminent. The Russians have sent an army of invasion into Hungary, while another army is waiting for an attack of the Austro-German forces in southwest Poland. A third Russian force is advancing towards Posen and Thorn East Prussia, and Gen. Rennenkapff's forces, which have done a lot of fighting since the war begun, are trying to get into East Prussia.

From the East Prussia frontier, the only news received today was from a German source which reported that the Russians had reached Lyck. The Austrians claim to have driven the Russians from Hungary with immense causualties and that the Russians have been cleared from the greater portion.

The Austrians also say they have forced the enemy out of Bosnia and that they have had successes here and there on the Drina. A Rome report has it that the Austrians are preparing to remove their capital from Vienna to Innsbruck.

Following the offer of a second contingent of troops by Canada, Australia is raising a third contingent.

Considerable importance is attached to the visit to Rome of Jules Cambon, former French ambassador to Berlin. M. Cambon has been in Rome some days now and has had an audience with King Victor Emmanuel. M. Cambon is said to know more about the inner politics of Europe than most men and it is believed that his visit is in connection with Italy's policy regarding the war.

WAR BULLETINS

LONDON, Oct. 10., 3 a. m.—An Amsterdam despatch to the Reuter Telegram Co. says that 32 German merchant ships, including a large number of steamers, have been blown up in the port of Antwerp.

LONDON, Oct. 9.—A despatch to the Exchange Telegraph Co. says:

The Belgian government has addressed to the neutral powers a vehement protest against the action of Germany in monopolizing all the food stuffs found in Brussels and its environs by reducing the native populations to famine.

LONDON. Oct. 9.—A central news despatch from Rome says:

"The Innsbruck (Austrian) correspondent of Messagero states that the imperial palace and other public buildings there are being prepared as quarters for the court and ministers in event of the transfer of the capital."

LONDON, Oct. 9.—The places in Antwerp which thus far have suffered the most severely in the bombardment of that city are the southern station, the Palace of Justice, the avenue De L'Industrie and the quarters in these vicinities. This statement is made in a message from the Ostend correspondent of the Exchange Telegraph company.

EARLY MORNING FIRE RAZES COLUMBIA UNIVERSITY BUILDING

New York, Oct. 10.—Fire which broke out in a two story building on Columbia University shortly after midnight this morning threatened to spread to nearby dormitories, causing the sounding of the fourth alarm at 1:30. The burning building, used as a boiler shop and gymnasium was within 200 feet of one of the dormitories.

Fifteen minutes later there was little hope that the gymnasium with its lockers and athletic clothes; the editorial rooms of the Columbia Spectator; the College registration office; the swimming pool and the room occupied by the national commission of prison labor—all in the burning building—could be saved. At 2 o'clock this morning it appeared however that the flames would be confined to this one building and none of the dormitories would be destroyed.

Across the street in Whittier Hall many girl students of Barnard and women teachers in the Barnard teachers college were asleep in dormitories. They were aroused but the building they were in did not appear to be in danger. It was thought that the fire started in the boiler room in the basement.

AMERICAN RED CROSS UNIT REACHES PETROGRAD

London, Oct. 9.—A Reuter despatch from Petrograd announced the arrival there of an American Red Cross detachment, consisting of five surgeons and 25 nurses on their way to the front.

AVIATOR AND PASSENGER DIE WHEN AEROPLANE CAPSIZES

LONDON, Oct. 9.—11 p. m.—A despatch to the Exchange Telegraph Co., from Paris says that through the capsizing of an aeroplane in which they were making a reconnaissance, Lieut. Noel and a passenger named Emmer lost their lives. They were flying at an altitude of 4,000 feet when the machine for some unknown reason turned turtle and fell.

Another aviator, Gariex, holder of many world's aviation records, has been taken prisoner and is now in Berlin.

FRIDAY IN CONGRESS.

Senate.

Met at 11 a. m.

Began consideration of war revenue bill.

Conference report on Alaska coal land leasing bill called up.

Adopted resolution extending thanks of congress to A. B. C. mediators.

Recessed at 5:55 p. m. until 11 a. m. tomorrow.

House.

Met at noon.

Resumed debate on Philippine bill.

Judiciary subcommittee formally agreed to drop investigation of charge against Associate Justice Daniel T. Wright of District of Columbia supreme court who has resigned.

Representative Henry introduced compromise cotton loan bill.

Without completing Philippine bill adjourned at 5:10 p. m. till noon Saturday.

SHARPLY CRITICIZES FEDERAL AID PLAN

M'ADOO SAYS PLAN OF REPRESENTATIVE HENRY IS IMPRACTICABLE

Generally Objects to all Features of Henry Scheme to Procure $400,000,000 Direct Aid From Government For Cotton Growers.

WASHINGTON, Oct. 9.—The plan for direct federal aid to cotton growers to the extent of $400,000,000 was the subject of sharp criticism in a letter to Representative Henry of Texas made public tonight by Secretary McAdoo. The letter is in reply to a recent statement to the house by Mr. Henry.

Mr. McAdoo announces that the proposal to sell $150,000,000 of Panama Canal bonds to bolster the cotton crop is not practicable and generally objects to all the features of the Henry scheme. He calls attention to the fact that those who deal in tobacco, naval stores, copper, silver and other commodities have sought government aid.

"If we disregard every suffering interest except cotton," said he, "and make it the sole beneficiary of governmetal favor, what becomes of the democratic principle of equal rights for all, special privileges to none.

"If we enter the course you suggest you must help every distressed industry impartially. To do that would necessitate the issue of many more than $400,000,000 in bonds and greenbacks and dangerously involve the credit of the government. It would be a hopeless undertaking, in defiance of every sound principle of finance and economics, with certain disasters at the end."

Representative Henry introduced in the house today a compromise loan proposition presented in a bill framed last night by a conference of southern members of congress. It would reduce the proposed loan to $250,000,000.

While Mr. McAdoo was writing his letter the committee of St. Louis jobbers and bankers, headed by Festus J. Wade, was in conference with a committee of the federal reserve board over the proposed $150,000,000 cotton loan fund to take care of the surplus cotton crop. No decision was reached and the conference will be resumed tomorrow.

Governor Hamlin and Messrs. Warburg and Harding of the board will discuss the proposal tomorrow before they meet the bankers and later the full reserve board may take it up.

CONTEST OVER CONFERENC REPORT OCCUPIES FULL DAY

Opposition to a Single Clause in Alaska Coal Land Leasing Bill Forces Vote Over to Today.

Washington, Oct. 9.—A contest over the conference report on the Alaska coal land leasing bill occupied the senate all day, postponing the debate on the war revenue bill. Opposition to a single clause in the conference report forced the final vote on the measure over until tomorrow.

Senators Lane and Borah objected to a provision of the conference compelling the secretary of the interior to bring suit for forfeiture in order to interfere with leesses such suits to be instituted within ninety days of notice to the defendant of the facts upon which the suit is bought "or the same shall be forever barred."

Senator Lane made the point of order that the conferred had exceded their authority on inserting the proviso and this point was pending when th esenate recessed.

GERMAN OFFENSIVE EVIDENTLY FAILS

Severest Fighting Continuesat Roye---AlliesClaim Capture of Prisoners

BOMBARD RHEIMS AGAIN

Allied Artillerymen seem Indefatigable in Replying When Germans Open Fire

FIERCE FIGHTING IN EAST

On the Battle Front, Oct. 9. (via Paris, Oct. 10, 4:15 a. m.)—The sharp offensive movement of the Germans on the western wing of the allies on the Belgian frontier evidently has failed in its object of bending or breaking the French and British line.

The long extension of the battle line, which now has gone beyond the four rivers, Scharpes, Somme, Oise, Aisne, has been initiated by the allies in an endeavor to find a solution of the problem of ousting the Germans from their strong position in northeastern France. In these positions the Germans had been beseiged nearly a month, since the conclusion of the bloody battle of the Marne, a frontal attack being considered inexpedient by the allies. The present front is within about 68 miles of Antwerp, where the Belgians have offered such heroic resistance to the bombardment of the heavy German artillery.

Belgian officers who have arrived here from Antwerp declare that the Belgians themselves destroyed forts Waelhelm and Waevre.

Further down toward the center of the line the severest fighting continued today, at Roye where the allies took a large number of prisoners. Rheims again was susjected to a short bombardment. In other parts of the center the opposing forces remain constantly alert. The cannonade has diminished in intensity and the allied troops occupying the trenches are becoming thoroughly accustomed to the situation. Many of them spend the intervals between the spells of rifle firing reading newspapers to their comrades beneath the bomb proof shelters.

The allied artillerymen seem indefatigable in replying with vigor whenever a German cannon opens fire. The men throw themselves on the ground when they hear the peculiar tearing noise of the enemy's shell and consequently the casualties in this section are few.

At night everybody is at high tension and few noises are heard. All around the air is full of dust and sand thrown up by shell splinters, while the odor from the explosives is intense.

The French and Germans still generally utilize bugle calls and when these are heard searchlights immediately are flashed out. The British commands however are whispered along the trenches from mouth to mouth so that even in the silence of the night no sound reaches the ears of the Germans in their trenches not so far away and no indication is given of any proposed movement or attack until it is in full swing.

On the eastern wing the fighting is still very fierce around St. Mihiel, with many night attacks. The Germans are extremely clever in constructing blind trenches against which the allies fire is often directed while the Germans actually are posted some distance away in other trenches from which they can pour in an enfiladed fire.

AMERICAN CONSUL GENERAL AT ANTWERP ARRIVES AT GHENT

LONDON, Oct. 10, 3:54 a. m.—Henry Deiderich, American consul general at Antwerp, arrived at Ghent, Belgium, according to the Ghent correspondent of the Daily Telegraph.

In a despatch dated Thursday the correspondent says:

"Cousul Deiderich arrived from Antwerp today. He told me that many shells fell in the city between 11:30 o'clock Wednesday and 7:30 o'clock this morning, when he left. One shell exploded just in front of his residence. The Cathedral (the Church of Notre Dame), had not been struck, although shells fell very near that building."

SAYS WAR AGAINST ENGLAND WILL BEGIN AT END OF MONTH

ROME, (via Paris) Oct. 9.—The war against Great Britain according to German newspapers received here, will commence at the end of October after Antwerp has fallen.

Belgium then will become the base of operations against Great Britain, the newspaper states. They add that Admiral von Tirpitz, the minister of the navy, who is now at general headquarters with Emperor William, has announced that he will go aboard the flagship of the German fleet and direct the operations of the navy.

HOYNE REFUSES APPEAL OF CRIME COMMITTEE

DECLINES REQUEST TO APPOINT SPECIAL PROSECUTOR OF POLICE

Takes Stand That Such Investigations Should be Conducted by the Grand Jury—Conducts Probe Into Street Revolver Duel.

CHICAGO, Oct. 9.—Maclay Hoyne, state's attorney, today refused an appeal from Charles E. Merriam, chairman of the council crime committee, to appoint Fletcher Dobyns of counsel for the committee, assistant state's attorney to prosecute members of the police force who have been implicated in deals with pickpockets.

The request was made, according to Mr. Merriam, because of the "startling testimony regarding collusion between certain criminals and certain members of the police force." Mr. Hoyne's refusal was based on his belief that such investigations should be conducted by the grand jury and not by a council committee.

Further testimony was given today by Benjamin Kendall, John O. Mortimer and Leroy Classen, all investigators of the committee.

Kendall told of a conversation with Harry Powers, a detective sergeant to whom he had been introduced by a saloon keeper. Powers told him, he said, he could have got two friends out of jail for $25 instead of the $200 Kendall said he paid the saloon keeper.

"He told me if we ever got pinched again to call him up and he would get us out in 15 minutes," Kendall testified.

Barney Bertsche, ward politician who was shot with two policemen and two bystanders during the street revolver battle Wednesday, is expected to testify either before the crime committee or to the state's attorney as soon as he is out of the hospital.

The states' attorney is conducting an investigation into the shooting on the theory that it was the result of a plot to kill Bertsche, who had threatened to expose police regulations with the underworld before going to the penitentiary to begin a sentence for operating a confidence game. I'll take some of them with me," he is reported to have said.

BRITISH CLAIM SUCCESSFUL AIR ATTACK ON ZEPPELIN SHED

Admiralty Statement Says German Airship is Destroyed by Bomb Dropped From an Aeroplane.

London, Oct. 9—The following official statement was issued tonight covering an attack by a British air squadron on a German airship shed at Dusseldorf.

"The secretary of the admiralty announces that squadron commander Grey reports that, as authorized, he carried out with Lieutenant R. L. G. Marix and Lieut. S. V. Zippe, a successful attack on a Dusseldorf airship shed. Lieut. Marix's bombs, dropped from a height of 500 feet, hit the shed, went through the roof and destroyed a Zeppelin.

"The flames were observed 500 feet high, the result of the ignition of the gas of an airship.

"All three officers are safe but their aeroplanes have been lost.

"The feat would appear to have been in every respect remarkable, having regard to the distance of over 1000 miles penetrated into country held by the enemy and to the fact that a previous attack had put the enemy on their guard and enabled them to mount anti-aircraft guns."

ANNOUNCE COMPLETE BREAKING OF RUSSIAN INVASION OF HUNGARY

Austrian General Staff Says Recent Attacks on Przemysl Were Repulsed With Terrible Loss to the Enemy.

London, Oct. 9—The following official statement has been received by wireless from Berlin by the Marconi Wireless Co.:

"The Austrian general staff announces the complete breakup of the Russian invasion of Hungary. The recent attacks on Przemysl were repulsed with terrible loss to the enemy. The defence of the forts is being conducted by the garrison with the greatest skill.

"The Russians have been cleared from the Carpathians to the western ridge of Wynzkow. The Austrian troops have retaken Marmaros Sziget, Hungary.

"There is nothing to report from the east Prussian frontier.

"The Norwegian steamer Modig, carrying 1,800 tons of coal from England to Russia, has been captured by a German torpedo boat and brought into Swinemunde.

"German banks state that applications for participation in the German war loan have been received from neutral countries."

LARGE NUMBER OF ECCLESIASTICS IN FIELD

Rome, via Paris, Oct. 9.—According to reports received at the Vatican, more than 63,000 Ecclesiastics are now serving in different capacities with the armies in the field, especially with the Belgian, French and Austrian forces. Most of these clergymen are engaged in hospital work. They include seven bishops and nineteen other prelates.

EXPECT INDIAN ATTACK ON NACO

Besieged Troops AreFighting Yaqui Skirmishers With Hand Bombs

HILL EXPECTS ARTILLERY

Commission Form of Government for Mexico Until Order Is Restored Is Suggested

DETAILS ARE NOT RECEIVED

NACO, Ariz., Oct. 9.—An independent attack on Naco, Sonora, across the line, by Yaqui Indians is expected hourly.

General Benjamin Hill, for six days beseiged in Naco, is fighting the Indian skirmishers with hand bombs, hoping to delay the attack. Tomorrow he expects three pieces of artillery which will put him on a par with the forces of Governor Maytorena, the Villa commander.

Maytorean, himself, expects the Indians to attack soon. He admits that his control over them is maintained with difficulty.

Every day makes Hill's position stronger, for supplies, ammunition and reinforcements are added constantly. His ability to buy what he needs on the American side is explained by the report that wealthy members of the Carranza junta are furnishing the money.

Suggest New Solution.

Washington, Oct. 9.—A commission form of government for Mexico until order is restored and the resumption of full constitutional functions, has been suggested at the informal discussions at Aguas Calientes preceding the formal meeting between representatives of Carranza and Villa. This was reported to the state department here tonight and met with prompt recognition as a possible solution for the vexing problems of the Southern republic.

The plan, it was believed, would eliminate the personal rivalry of various factional leaders and lead to early restoration of a strong central government with which the United States could deal in more direct fashion than is possible under present condition in Mexico.

Details of the proposal were not received so far as is known, but officials found somewhat of a parallel for the plan in the organization and powers of the Philippine commission. They thought it probable such a commission would at first be of a military nature largely, since its authority must be supported by the army although it might later, through changes in the personnel, become entirely civil and provide an easy way for return to constitutionalist government.

Further reports of distress on the west coast of Mexico came tonight from Admiral Howard. Lack of food or of any central authority he said, caused constant conflict between the people and the soldiers.

Protest to the state department was made today by the Spanish ambassador against the arrest of the Spanish consul at Mazatlan by Mexican officials. Other hostile actions against Spaniards in that region were reported. The department has ordered an investigation by the United States consular officers.

JOINT RESOLUTION THANKING A. B. C. MEDIATORS PASSES SENATE

WASHINGTON, Oct. 9.—A joint resolution extending the thanks of congress to the South American diplomats who acted as mediators between the United States and the Huerta government in Mexico, was passed by the senate today. The resolution provides also for an appropriation of $30,000 for the purchase of gold medals to be presented to the three mediators, Ambassador Da Gama, representing Brazil; Minister Naon of Argentina, and Minister Suarez of Chile.

The resolution now goes to the house.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Oct. 9.—Illinois: Showers Saturday; Sunday cooler, probably fair.

TRANSPORTATION FACILITIES IN MEXICO CITY ARE PARALYZED

MEXICO CITY, Oct. 9—Transportation facilities in the capital were paralyzed tonight as a result of the strike of the cabmen and street car employes.

The strikers today rejected an offer of a 10 per cent increase in wages. They demand a 100 per cent increase, an eight hour day and recognition of the union.

The strikers held a mass meeting tonight and later paraded the principal streets of the city. There was no disorder.

SEVEN TAKEN IN BY JACKSONVILLE REBEKAHS

Several Visitors Present For Work at I. O. O. F. Temple Friday Evening.

Several visitors were present from away and a large number of members were in attendance at the regular meeting of Jacksonville Rebekah Degree Lodge, No. 13, when the degree staff conferred work upon seven candidates. Miss Grace L. McCarty was chairman of the evening. After the work there was enjoyed a social hour at which refreshments were served. On the committee were Mrs. J. L. Pine, Mrs. Mayme Mahoney and Misses Grace McCarty, Fern Haigh, Mabel Berry, Nina Mahoney and Messrs. Otis Ermey and Allen Taylor.

The candidates were: Miss Lillian R. McCullough, Miss Myrtle Flavery, Miss Grethel Moses, Miss Veda L. Colby, Mrs. George Hocker, Miss Adelaide McCarty and Ralph M. Stone.

Why not buy that winter suit now at Knoles. The weather is warm but cold days are coming soon.

ANNIVERSARY OF BIG CHICAGO FIRE.

October 9, 1871 just 43 years ago occurred the great conflagation which almost swept the business portion of Chicago out of existence. The story of how the fire was started is well known to many of the older residents of this city. It was said to have been started on the south side just off State street, and in the vicinity of 12th street. The wind was blowing a gale and the flames caused by Mrs. O'Leary's cow which kicked over a lamp while being milked were soon communicated to dwelling houses and were in no time at all beyond control of the fire department. The death loss was large and the financial loss mounted into many millions of dollars.

There was during the week in the fire occurred a military drama which drama under the management of Samuel Muscroft of Mansfield, O., in progress in Strawn's Hall, and as it was under the auspices of the local military company with the assistance of some of the young men of the city, the attendance was large. When the news of the fire in Chicago was received it was decided to donate to the fire sufferers in Chicago one half of the gross receipts, and a sum amounting to several hundred dollars was sent.

The drama presented was the 'Drummer Boy of Shiloh' and by its title it will be remembered by many who atteneded the week's performances.

MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, does not eat, sleep or act naturally has stomchache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative", and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs", which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—adv.

ONE-SIDED GAME GOES TO ILLINOIS

LINCOLN COLLEGE HUMBLED BY SCORE OF 107 TO 0.

Coach Harmon Utilized Second Team Men in Contest Against Visitors Yesterday.—Charleston Normal Downs Wesleyan 18 to 0.

Illinois college football eleven in their initial game at home humoled the Lincoln college team by a score of 107 to 0. Friday afternoon. Illinois scored a touchdown in less than one minute after the referee had started the game and the scoring was kept up uninterruptedly until the end of the contest, although Coach Harmon sent in a number of his second team men to give them a work out. While Coach Harmon has a good scoring machine, the game did not reveal their strength so much as it did the weakness of Lincoln. Their offensive and defensive playing was about the poorest which has been seen on Illinois field for many a day. All the visiting men were of good size physically, but they woefully lack team work and if it was a case of "stage fright" at first, they never recovered from it during the entire four quarters. The fans expected a closer score. For the past four years not more than seven points has separated the teams in their annual struggles, but it will take several seasons before Lincoln will be able to pile up one hundred and seven points against Illinois. The game served two purposes, it opened the eyes of the Lincoln men as to their weakness and it gave Coach Harmon's team an opportunity for a good practice. The crowd was small, the damp weather being a cause, and it was thought Thursday night that the game would never be called. The bright spots in the game, were a number of forward passes which Illinois pulled off, although the wet grounds made it impossible at times for both teams to use the play to any great advantage.

Gary, substitute quarterback.

Illinois used as substitutes Jones, Lukeman, Whisler, Gary, Russel, Capps, Harmon, Berry, Theobald. Lincoln had as substitutes Graham, Irwin, Serdill, Stone.

The game opened with Illinois kicking to Lincoln, Schefler receiving the ball. Wilson intercepted a forward pass and went around Lincoln's right end for a touch down in the first minute of play. Frisbie failed to kick goal.

Alford featured the quarter by two touch downs and Stewart got two, one of them being a long dodging run, which brought a glad hand from the crowd. The score was 34 to 0.

In the opening of the second quarter Illinois by a succession of line plunges and end runs paved the way for Stewart to make another touch down. Later Helme intercepted a forward pass ending his run of forty yards for a touch down. Other touch downs were made by Wilson, Jones and Gary. Score 68 to 0.

After a see-saw manoeuver which opened up the second half Frisbie received a pretty forward pass and after a run of thirty yards went over for a touch down. Mostly second team men were utilized in this quarter and the one touch down was all the points gained in fifteen minutes of play.

In the last quarter Illinois added 32 points more. Touch downs were made by Helme, Wilson, Stewart (3), and the locals had succeeded in working the ball within 20 feet of Lincoln's goal when the whistle blew.

The Line-up:

Illinois	Position	Lincoln
Pierce	L. E.	Small
Mitchell	L. T.	Kirby
Butcher	L. G.	M. Siebring
Atchison	C.	Bone
Allen	R. G.	Siebring
Frisbie	R. T.	Beaver
McLaughlin	R. E.	Nutter
Stewart	Q. B.	Humphrey
Wilson	R. H. B.	Martin (Capt)
Helme	L. H. B.	Schefler
Alford (Capt.)	F. B.	Reichlie

Summary.

Touch downs—Wilson, 3; Alford, 2; Stewart, 6; Helme, 2; Jones, 1; Gary, 1; Frisbie, 1. Goals from field—Frisbie, 11. Halves—12 1-2 and 15 min.

Officials—Referee, Lucas (Wesleyan); umpire, Morris (Carrollton); Headlinesman, Larson.

FOUR ARE KILLED AND FIVE HURT IN MISSOURI TORNADO

The Dead and Three of the Injured Were Members of One Family—Two Homes Are Completely Wrecked.

Joplin, Mo., Oct. 9.—Four persons were killed and five injured, two probably fatally, tonight when a tornado swept a farming district nine miles southwest of here. The four killed and three of the injured were members of one family.

The dead:
John Deerfelt.
Mrs. John Deerfelt.
Edith Deerfelt, 16 years old.
Infant of Mr. and Mrs. Deerfelt.
The injured:
Naomi Deerfelt, 12 years old.
Esther Deerfelt, 9 years old.
Dorothy Deerfelt, 6 years old.
Sheppard Gamby.
Mrs. Sheppard Gamby.

The homes of the Deerfelt and Gamby families were situated only a short distance apart. Both were completely wrecked.

BOARD COMPLETES CANVASS OF VOTE AT PRIMARY ELECTION

No Change in Nominations as Indicated by Unofficial Vote Published Recently is Shown.

Springfield, Oct. 9.—The canvass of the vote cast at the primary election September 9, for state officers was completed tonight by the state canvassing board, following the receipt this morning of the official vote from Cook county. The canvass of the vote for committeemen was not concluded tonight and will be resumed next Monday morning. No changes in the nominations as indicated by the unofficial vote published some days ago are shown by the official canvass. So far notice has been given of but one contest, this being in the twenty-first senatorial district, Chicago, where George Maypole gives notice that he will contest the nomination of B. M. Mitchell, democrat, who received a plurality of twenty-one votes.

Maypole, to make doubly sure of getting a place on the ballot, filed a petition as an independent candidate last Saturday, the last day under the law for filing such petitions. In view of the contest the state board issued no certificate of nomination for democratic candidates for the legislature in the twenty-first district.

A hearing on objections to the petition of the Rev. Jenkin Lloyd Jones, as an independent candidate for state senator in the third district, now represented by Samuel A. Ettelson, republican will be held in the office of the attorney next Tuesday.

THOUSANDS OF REFUGEES ARE ARRIVING AT OSTEND, BELGIUM

LONDON, Oct. 9.—"Thousands of refugees are arriving here and the steamers for England are packed", says Reuter's Ostend correspondent.

"In the siege operations against Antwerp the Germans are using no less than 200 guns of 11,12 and 16-inch calibre, some of them having a range of over eight miles.

"The bombardment of Antwerp yesterday began at half past nine o'clock at night and stopped at ten, only to be renewed with increasing violence at midnight.

"The British, French and Russian ministers were the last of the diplomatic body to quit Antwerp. They left by boat at eleven o'clock last night after witnessing the first part of the bombardment."

FURLONG CONTESTS DEMOCRATIC NOMINATION OF M'DERMOTT

CHICAGO, Oct. 9.—William E. Furlong, defeated candidate for the democratic nomination for congressman from the fourth congressional district of Illinois, filed a petition in the circuit court today contesting the election of James T. McDermott as democratic candidate. Furlong alleged that to his knowledge he had been defrauded of 1,000 votes cast for him and in addition 500 votes were counted illegally for McDermott.

McDermott resigned as representative from the Fourth district after a congressional committee had investigated his relations with lobbyists.

FRENCH TORPEDO BOATS SUNK.

London, Oct. 10.—1:50 a. m.—A Reuter despatch from Toulon says that the French torpedo boats, the 338 and the 347 collided Friday morning off the Isles of Porquerolles in the Mediterranean and sank. The crews of both vessels were saved but salvage of the ships will be impossible.

CHRIST'S SECOND COMING WILL IT BE THIS MONTH?

Pastor Stephens to Speak on This Theme at Baptist Church.

On Sunday morning, Pastor Stephens of the First Baptist church, will continue his special series of sermons on Christ's Second coming, the subject being "The Signs of Christ's Coming." Some say that Christ will return during this present month of October. Mr. Stephens will compare this with the teaching of the Bible to see if that interpretation can be substantiated.

At 7:30 p. m. the young people of the Baptist church will hold their annual rally in the auditorium when a number of "Spizzerinktum" speeches will be given by members of the Union and an appropriate message by the pastor. There will be special music at each service in charge of Mrs. Lucy D. Kolp of the Illinois Woman's College. No seats will be reserved.

Charleston Downs Wesleyan.

Bloomington, Ill., Oct. 9.—Illinois Wesleyan, 0; Charleston Normal, 18.

What About It?

Are you going to let the price of a bottle of Syrup of White Pine and Tar stand between you and a good night's rest, or are you going to hack and cough and lie awake all night just to save 25 cents?

Compound Syrup of Pine and Tar is our best of all cough and cold remedies and the sale for it has increased wonderfully. It contains nothing but good old-fashioned reliable ingredients that every one knows and can trust, and these are carefully put together so as to insure the best medicinal results. And it does. We sell a good sized bottle for 25 cents.

DENIES ADVANCE OF RUSSIAN FORCES ACROSS NIEMEN RIVER

Official German Statement Brands Report as a Lie—Claim Capture of Many Russian Prisoners and Gain of Ground in France.

Washington, Oct. 9.—The German embassy today received the following wireless from Berlin:

"Official headquarters says that the report of an advance of Russian forces across the Niemen river in the district of Suwalki, Russia, is a lie. The battle took place near Augustowo, where the Germans on October 1 and 2 completely defeated two Russian army corps, made thirty five hundred unwounded prisoners and took twenty guns, of which one was a heavy battery gun, and a number of machine guns. (Here part of the message was lost in transmission).

"On October 4, German troops threw a brigade of Russian rifle guards from a fortified position between Opatow and Ostrowiec, in Russian Poland, and took three thousand prisoners and numerous guns and machine guns. On October 5, the Germans attacked, near Rudow, two and one-half Rusian cavalry divisions and parts of the Ivangorod reserve and drove the Russians back into Ivangorod.

"Elsewhere (along the Russian front) the movement of German troops for strategical reasons has caused a lull in the fighting.

"In France we are gaining ground slowly but surely, and the situation continues favorably. The battle front of the right wing has been extended to Arras, where our vanguard came in touch with the enemy's cavalry and the same west of Lille."

Wild Rose creamery butter has the quality of being uniformly good.

CRYING FOR HELP

Lots of It in Jacksonville But Daily Daily Growing Less.

The kidneys often cry for help.
Not another organ in the whole body more delicately constructed:
Not one more important to health.
The kidneys are the filters of the blood.
When they fail the blood becomes foul and poisonous.
There can be no health where there is poisoned blood.
Backache is one of the frequent indications of kidney trouble.
It is often the kidneys cry for help. Heed it.
Read what Doan's Kidney Pills have done for overworked kidneys.
Read what Doan's have done for Jacksonville people.

Mrs. Eva Martin, 902 Hackett avenue, Jacksonville, says: "I have taken Doan's Kidney Pills for several years and I know them to be a good, reliable remedy. When I have a pain in my back and my kidneys do not act regularly I get Doan's Kidney Pills at Armstrong's Drug Store. They bring me great relief and I have no hesitation in saying so."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Martin had. Foster-Milburn Co., Props., Buffalo, N. Y.—adv.

INDICT TWENTY-FIVE SERVIAN PRISONERS.

Bordeaus, Oct. 8., (via London)—The Neiuws Wiener Tageblatt, a copy of which has arrived here from Vienna, says that an indictment, alleging high treason and covering 37 pages, has been read to 25 prisoners who are charged with having been concerned in the murder of Arch Duke Francis Fernand, the heir-apparent of the Austrian throne, at Sarajevo. It is expected that their trial will last three weeks, according to the newspaper.

GERMANS OCCUPY TURNHOUT.

Amsterdam, (via London) Oct. 9.—According to a message from Baarle-Nassau, the Netherlands, to the Nieuw Rotterdamsche Courant, the Germans occupied Turnhout, 25 miles east, northeast of Antwerp this morning. Thousands of fugitives have arrived at the Baarle-Nassau station. Trains coming from the Dutch frontier were fired on by the Germans who destroyed the locomotives.

EVANGELISTIC SERVICES PROVE OF GREAT INTEREST

Dr. Kirkland Conducting Series at Lynnville Christian Church—Special Lecture Sunday Night.

The Christian church at Lynnville is having a stiring up in the way of evangelistic services, led by Evangelist Kirkland. Dr. Kirkland is a native of the south, and is a personal friend to the Christian pastor at Lynnville, the Rev. A. L. Lyon. Recently Evangelist Kirkland, lectured to an overflow crowd on his experience in the great earthquake at San Francisco. Dr. Kirkland is a striking word painter and his lecture was worth hearing.

Tomorrow night he will give his lecture on "Courtship and Marriage". He has written a book on "Married and Marriage", and the good people of Lynnville are expecting a great treat. A great crowd is expected. Those wanting seats had better come early. Last Sunday night many could not find seats although the Christian church at Lynnville is a large roomy house.

There will be no charges to this lecture but a free will offering of ten cents will be asked of all who hear the lecture. This money is applied on the expenses of the meeting.

The evangelist's subject Sunday morning will be "The Unpardonable Sin", that sin for which there is no forgiveness neither in this world, nor in the world to come. Dr. Kirkland has been a minister since a fifteen year old boy and has held some great meetings and that has inspired the Lynnville people to expect great things of this meting.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhœa. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years

January and February 1915

REPORTS REACHING WILSON SAY BUSINESS IS IMPROVING

Democratic Speakers Are to be Instructed to Dwell on this Fact During Campaign.

Washington, Oct. 9.—Business conditions throughout the country are improving, according to reports reaching President Wilson today and democratic speakers are to be instructed to dwell on this fact during the fall campaigns in answer to the expected charges by republicans and progressives that the new tariff has brought financial disaster.

The president was informed that many orders for American goods were being received from abroad and that the first bad effects of the European war on American industry had passed.

As apart of the democratic campaign, the president probably will issue a statement when he signs the Clayton anti-trust bill, now before him, calling attention to the completion of the proposed program of trust legislation started with the passage of the trade commission bill.

Mr. Wilson has decided also to accept an invitation to speak in Pittsburg, October 24 on the seventieth anniversary of the founding of the Y. M. C. A. While he will not make a political speech, he will go at the invitation of Representative Palmer, candiate for senator, and his appearance is likely to assist Mr. Palmer.

SIGMA PI PROGRAM.

Sigma Pi society of Illinois college gave the following program Friday night:

Declaimer.

Mrs. J. C. Rook and Mrs. William Rook have gone to St. Louis to visit with Mr. and Mrs. Fred Rook.

TWO UNMASK D AUTO BANDITS KIDNAP WEALTHY IOWA FARMER

DES MOINES, Ia., Oct. 9.—Two unmasked automobile bandits, each carrying a revolver, kidnapped Charles Ashworth, a wealthy Polk county farmer today in broad daylight and not twenty feet from the main street of Valley Junction, a suburb of Des Moines.

Ed Wagner, a business man, broke away from the robbers and made his escape after they had relieved him of a $1,000 diamond ring, his watch and all the money he had.

The bandits stopped Wagner and Ashworth in an alley back of the former's saloon. They demanded $10,000 from Wagner and $1,000 from Ashworth.

SUGGESTS THAT ENGLAND BE ASKED TO SOLICIT GUARANTEES

WASHINGTON, Oct. 9.—Senator Walsh of Montant suggested to the president today that Great Britain be requested to solicit guarantees from neutral nations that they would not permit consignments of American copper to get into the hands of belligerent nations. The state department is now seeking such guarantees from Norway and Sweden and Italy, but the Senator believes that England should do this.

"There is no reason why friendly nations should not continue trading in copper," the Senator said "Yet England has undertaken to interfere with all shipments of American copper to neutral nations. There is no extraordinary shipment of American copper and none of it is going to belligerents through neutral nations."

BURGLARS TRY TO ENTER BRADY BROTHERS STORE

Had Succeeded in Getting Bolt Out When Work Was Intercepted by Merchant Police Sweeney, this Morning.

Through the timely appearance of Merchant Police Jeremiah Sweeney, burglars, who were trying to force an entrance into Brady Brothes Hardware stoe were intercepted in their work at 12:15 o'clock this (Saturday) morning. The parties had succeeded in breaking one of the bolts and loosing a long iron bar. The glass was broken and the thieves were just in the act of breaking the lock when they left to escape the officer.

They left lying by the door, a wrench about two feet long with the number 341 on it. There was also an 18 inch rasp close by. The man had evidently stuck his foot through the door where the glass was broken in order to get a brace to work at the lock, for inside the door was found a low cut shoe, size 7. The man had evidently been hurried from the scene and was glad even to get away.

W. J. Brady was notified and came down and a search was made of the premises, but nothing was found disturbed in the store.

NEWSPAPER PUBLISHERS PREPARE TO ASK CHANGE IN HOUSE BILL

Want Portion of Measure Providing Stamp Tax on Bills of Lading on All Packages Revised.

Washington, Oct. 9—Newspaper publishers generally are preparing to ask the senate to change that portion of the house war revenue bill providing for a stamp tax on the bills of lading on all packages so that it will not be necessary to attach bills of lading to bundles of newspapers. The newspaper owners do not object to paying the tax, but regard the method of levying it as impracticable. They contend that neither the railroads nor other transportation companies will hold their cars until newspaper packages are checked, stamped and receipted for.

Pittsburg newspaper publishers who have inquired into the effect of that section of the bill as passed by the house requiring bills of lading, manifests and receipts with stamps attached in connection with shipments of newspapers believe that very serious delays in delivery will result.

Instead of this system of stamped bills of lading, the newspaper publishers of Pittsburg, for example, suggest that a tax be imposed on the basis of sworn circulation.

RUSSIAN GENERAL STAFF GIVES OUT AN OFFICIAL STATEMENT

Declares Offensive of Russians All Along the Front Continues Energetically.

Petrograd, Oct. 9—The following official statement has been given out by the general staff:

"On October 8, our troops on the east Prussian border continued to press the enemy, who had formed two fighting groups.

"The first group was operating in the region of Vladislavoff, and Wirballen (both towns in the government of Suwalki, Russian Poland)

"Our troops dislodged them from Vladislavoff and surrounded them on north. On October 8, however, this group still maintained its position east by south of Wirballen. All its attempts to take the offensive at that point failed, the enemy sustaining heavy losses.

"The second group of the enemy, a very strong one, commenced an energetic attack in the vicinity of Ratchka lake and Bakalarzewo (East Prussia). Toward morning on October 8, we assumed a vigorous offensive against their front. The enmy covered by strong rear guards tried it seems to get out of the sphere of the battle. Our troops captured by successful assaults the portions the enemy was trying to hold. We finally occupied Lyck (East Prussia.)

"Our offensive fall along the front continues energetically."

PLAYED STAR GAME.

North Carolina university recently defeated Richmond college 41 to 0, in football. George Tandy is a member of the N. C. U. team and the paper says he "played a star game at center." George has recently been initiated into the Sigma Chi fraternity.

SENIOR CLASS ELECTS.

The Senior Class of Illinois college held an election Friday as follows:

President—Earl A. Harmon.

Sec. and Treas.—Mabel Hess.

Member Social Committee—P. E. S. Brewer.

An election for the RegVeda Board will be held Monday.

HALLOW'EEN DECORATIONS.

SEEKING DATA ABOUT LETTERS BY LINCOLN

New Edition of Great Illinoisan's Works Will be Prepared by University Experts.

Urbana, Ill., Oct. 9.—Letters written by or to Abraham Lincoln are in demand. Professors Clarence W. Alvord and Daniel K. Dodge of the University of Illinois faculty have been appointed by the Trustees of the Illinois State Historical Library, joint editors of a new edition of Abraham Lincoln's works. It is a well known fact that there are many letters, particularly private ones, of Lincoln's that have never been made public, nor has there been made an exhaustive collection of his speeches.

The two well known editions of Lincoln's works have been criticized, both for lack of inclusiveness and of editorial carefullness, so that there is room for another edition of the works and letters of this great Illinoisan, and it is most fitting that the Illinois State Historian edition for the forthcoming Centennial celebration of the admission of the state to the union.

The editors propose to limit their work to the period preceding Lincoln's election as president. They expect to make a careful survey of every well known collection of Lincolniana in search of new material; but since this enterprise is one that will appeal to the patriotism of the people of Illinois, an especial request for co-operation is made by the editors to all citizens having in their possession letters from or to Lincoln.

Communications may be sent to Professor Alvord, of the University of Illinois, Urbana, and steps will be taken to have copies made and to see that due credit is given, in each case, to the one furnishing the information.

Complete new lines of fall and winter weight suits and overcoats at Knoles.

ORDERS AUTOMOBILE TRUCKS FOR USE OF THE FRENCH ARMY

BETHLEHEM, Pa., Oct. 9.—Announcement was made tonight that the Bethlehem Steel Co., acting as purchasing agent for the French government, has placed an order with a Cleveland, Ohio automobile concern for 600 motor trucks for use of the French army in the European war. The order for the additional four hundred trucks has as yet not been placed. It was also stated that manufacturers have been asked to submit bids supplying one thousand touring cars of the five and seven passenger size. These cars are also to be purchased for the French government through the Bethlehem Steel Co.

Good tomatoes for canning at Weber's.

ISSUE BRITISH CASUALTY LIST.

London, Oct. 9.—A casualty list of British officers, issued tonight, reports one officer killed, three died of wounds, six wounded and two missing.

A list also was issued under dates of September 15, 16 and 17. This included 57 non-commissioned officers and men killed; five died of wounds; 270 wounded and 625 missing. The missing belong chiefly to the Connaught Rangers and Royal Cameroonians.

T. P. A. meeting tonight.

Laying or Loafing?

DR. CARSON

Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap Hotel, Jacksonville, Illinois, Wednesday, Oct. 14th, 1914, one day only. (Returns every 28 days). Hours, 8 a. m. to 4 p. m.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL?

Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Palm of hands moist? Have you a dull, dragging pain or ache of the body, back or limbs? Have you Rheumatism? Have you Fistula? Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or loins? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

I invite you to call and investigate the Carson System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT.

Come early as parlors are always crowded.

A friendly call may save you future suffering; it has made life anew to thousands who had been pronounced beyond hope.

C. W. CARSON, M. D.,
766 Oakwood Blvd., Chicago, Ill.

Experience makes perfect. Having treated hundreds of old chronic stomach troubles for the last fifteen years, I can relieve a great maojrity of these cases and restore them to health and strength again, especially in those cases who suffer from the effects of pain in the stomach and bowels, bloating, gas, spitting up of food, sour stomach, headache, dizziness, loss of appetite, drowsiness, and heavy, bad feeling in the head.

PILES—Every case guaranteed cured without detention from business or use of knife.

Private Diseases a Specialty!

NERVOUS DEBILITY—Are you nervous, despondent, weak, tired mornings, no ambition, poor memory, easily fatigued, excitable and irritable, eyes sunken, red and blurred, pimples on the face, dreams, restless, haggard looking, weak back, deposit in urine, drains at stool, distrustful, want of confidence, lac kof energy and strength

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

Make Your Home Spick and Span

Everything about the house—inside and out—can be made cheerful and bright by the use of a little paint.

FIRST AMERICAN BATTLESHIP TO HAVE THREE GUN TURRETS

Installation to be made on Battleship Nevada Next Week.

Quincy, Mass., Oct. 9.—Preparations are being made at the Fore River shipyards here for the installation on the battleship Nevada of the first three-gun turrets ever placed on any American warship. These turrets will be the best protected of any in the world, and they will be the heaviest ever set up, weighing on the average about eighty tons. There is necessarily a large amount of work before the turrets may be set in their proper places, putting in potective armor below decks for the mechanical appliances used to operate and carry ammunition to the turrets, laying the tracks on which the massive pieces of armor are moved and planing off the bottom of the turrets to get them perfectly adjusted. All of this work is well along towards completion, so that the first turret probably will be hoisted aboard the Nevada next week.

Each of these turrets will have three 14-inch guns, the most powerful on any United States battleship and rivalled by only a few guns in the British and German fleets. These 14-inch guns weigh on the average about 147,500 pounds and measure fifty three feet in length. Perhaps nothing shows the superiority of the new guns more clearly than the charges they will be able to throw against the enemy, 1400 pounds in weight and containing a much larger amount of high explosive to cause damage when it hits the mark, compared with an 870 pound projectile for the 12-inch pieces.

Two of these three gun turrets are to be set up, one on the forecastle deck and one on the quarter-deck, with a two gun turret behind and slightly above each. Thus there will and a similar number facing astern and a similar number facing ahead with ability to concentrate the fire of all ten guns at either side or almost directly ahead or astern. The tremendous advantage of such an arrangement has made a deep impression on naval authorities the world over.

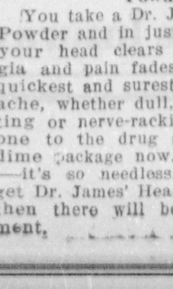

The New York and Texas, the only American ships in commission with 14-inch guns, carry them mounted in five two-gun turrets instead of four as on the Nevada and her sister ship, the Oklahoma, which is being constructed by the New York Ship Building company at Camden, N. J.

The side armor of the Nevada is well along towards all being in place, but it is figured that between three and four months will be needed to complete this work. Owing to the fact that the Nevada will use only oil for fuel she will have but one smokestack and will be able to concentrate her boilers in the middle of the ship and afford them heretofore unknown security in the form of the heaviest armor ever employed for this purpose.

PEACE

(By Walt Mason.)

If things were right, we'd never fight to add to our dominions; the dove of peace would never cease to wave its snowy pinions. We would abhor the name of war, detest the sight of battle; with scythe and flail we'd earn the kale where now the sabres rattle. The ages scoot, and man's a brute, and culture is a fable, and to our shame we're much the same as Cain, who butchered Abel. Our grace, I fear, is but veneer, and when you chance to scratch it, you find a wretch who longs to fetch you three licks with a hatchet. The lessons dire of nations' ire we carelessly are spurning; two thousand years of blood and tears, and yet we're nothing learning! If we were wise we'd all arise and can the fierce battalions, so busy now, and to the plow we'd hitch their pawing stallions. It could be done, peace could be won, if all would work to gain it, with voice and pen, again, again, expound it and explain it. Too long the harps of poet sharps have boosted blood and battle, exalted knights who yearn for fights, and all that sort of cattle. Now let us sing of peace, by jing, of home and happy labor, and let us show that spade or hoe is nobler than the sabre.

Copyright, 1914 by Adams Newspaper Service Walt Mason

"WEARING THE GREEN."

"The wearing of the green" seems popular just now, with the Illinois college freshmen accepting upper class dictation and wearing arm bands of the tell-tale color. It is probable that the issue between the freshmen and sophomore classes will be decided soon by a football game.

DULL, THROBBING OR VIOLENT HEADACHE

Don't Suffer. Get a 10 cent Package of Dr. James' Headache Powders.

You take a Dr. JJames' Headache Powder and in just a few moments your head clears and all neuralgia and pain fades away. It's the quickest and surest relief for headache, whether dull, throbbing, splitting or nerve-racking. Send someone to the drug store and get a dime package now. Quit suffering—it's so needless. Be sure you get Dr. James' Headache Powders—then there will be no disappointment.

CATTLE PRICES SHOW AN IMPROVEMENT DURING WEEK

Better Conditions Prevail in Market Following Decline of Last Week—Sheep Market Develops Stronger Tone.

Chicago, Oct. 9.—Following the break in the fair to medium grades of cattle last week, a light run showed up for Monday, total receipts being only 18,322 of which 4,000 were westerns and the market was active from the start. Choice kinds were not quotably changed, but those grades did not suffer in last week's break. The 9@10c grades were strong to a little higher, while such as sell between 8 and 9c a pound were 15c higher. There was a scarcity of good yearlings and these were in particularly strong request. The light run was absorbed in very good season and the market finished strong.

Receipts Tuesday were 6,865. The run consisted largely of westerns, the few corn-fed cattle here selling about steady.

The run Wednesday was 14,000. A stronger market was anticipated, but the trade opened slow. Early sales looked steady at Monday's advance, but trading during the later hours of the day was on a lower basis and in fact some sales hardly looked better than last week's close. However, a very good clearance was effected.

Fresh receipts Thursday were 5,000 and the market was practically steady.

Following the decline in the market last week on the fair to good grades of cattle, there was a light run the first of the week and decidedly better conditions prevailed. A comparison of prices reveals improvement during the week but this is not as marked as in the case of rangers, which latter class of cattle is anywhere from 25c to 50c higher. An adverse factor was the restricted eastern shipping demand owing to the fact that two more Jewish holidays occur next Monday and Tuesday. As these holidays terminate the season, this will not be a factor from now on and we should see a more sustained market. Prime beeves continue a strong request. There has been a particularly good inquiry for yearlings, the best of which have sold up to $11.00. There has also been a very good inquiry for feeders, more especially the more desirable kinds, and prices on these are generally a little stronger than a week ago.

The butcher stock market also shows improvement this week, being generally 10 to 15c higher on cows, heifers and bulls. The best veal calves are quotable at $11.25 per cwt.

News of the Sheep Market.

Receipts Thursday were 20,000 and the market was about steady. City butchers were good active buyers, paying up to $7.85 for prime lambs.

This week opened with the very liberal run of 50,104 Monday, the market ruling steady to lower on that day. Tuesday and Wednesday there was a stronger tone to the trade, helped on by a very active feeder demand. Compared with a week ago, prices on both fat lambs and sheep are generally 20 to 25c higher—Clay, Robinson & Co.

THE PRESENT CATTLE FEEDING SITUATION

The European War Will Emphasize the World Shortage of Meats.

(By H. P. Rusk, Associate in Animal Husbandry, University of Illinois.)

The prevailing prices of stock cattle and the prospective magnitude of the feed bill send a creepy feeling down the spine of the corn-belt cattle feeder every time he thinks of the fall and winter feeding operations. The prospect for anything strictly choice in the feeder line much below the eight cent level looks doubtful. In fact, there are not enough of the strictly choice kind to go around at any price, and venders in the feeder alleys harp on the good quality of cattle that a few years ago would have been considered "mighty sorry" by common consent.

From the Government reports, it appears that the season's corn yield will be large; presnt estimates indicate a yield of 188,000,000 bushels over that of 1913. But this does not mean that corn will be correspondingly cheaper than last year. War-ridden Europe is just beginning to draw heavily on this country's supply of grain, and this situation will maintain the price of corn at high levels.

But there is another and brighter side to the situation. There is a world shortage of meats, and the European war will emphasize this condition. The fact that the supply of beef cattle in the United States is hardly adequate to meet home demands will make the effect of the shortage felt more keenly. The highest prices in the history of the trade seem imminent and some trade experts predict a $12 market before Christmas. However, that may be it does not seem probable that there will be any serious break in the market for months to come.

LARGE AREAS OPEN TO HOMESTEADERS

Washington, D. C., Oct. 9.—Orders recently signed by Secretary Lane have opened to settlement and entry, under the enlarged homestead law, 3,600,000 acres of land in California, New Mexico, Colorado and Washington. Under the enlarged homestead act lands in the West are examined by the Geological Survey to determine whether there is any available water supply by which they may be irrigated. If not, they become subject to entry by settlers in tracts of 320 acres each, as against the 160 acres under the original homestead law.

Mrs. George Cunningham of Murrayville was a visitor in the city Friday.

TRADE SITUATION EXHIBITS A VERY UNEVEN APPEARANCE

Export Operations Provide the Chief Fillip to a Concededly Disappointing Trade.

New York, Oct. 9.—Bradstreets' will say tomorrow:

"Trade reports present an admixture of continued ill effects of the European war, warm weather, depression in the southern cotton crop; high rates formally although there are some signs of easing, hand to mouth buying, very slow collections, restricted industrial outputs and close scanning of credits. Under the circumstances the trade and industrial situation exhibits a very uneven appearance and at this juncture export operations, largely of war supplies, provide the chief fillip to a concededly disappointing trade. Warm weather over a wide area has prevented free distribution of seasonable goods by retail dealers and this development unfavorable reacts upon jobbing trade. At the same time conservatism is so widespread as to heavily curtail buying for future delivery while difficulty in obtaining credit likewise provides an additonal check rein.

Bank clearings for the week ended Thursday, October 8, according to Bradstreets' aggregated $2,729,751,000, a decrease of 19 percent from last year; wheat exports, including flour, aggregated 8,127,251 bushels against 6,148,948 last pear; business failures 332 against 314 last year.

TO DEMONSTRATE PARCEL POST

Fort Worth, Texas, Oct. 9.—A demonstration booth in connection with a sub-station showing the proper manner of packing and explaining all points connected with parcel post matter, will be maintained at the National Feeders and Breeders' Show which will open in this city tomorrow for a week's engagement. Experts of the post office department will explain to the stockmen how to pack goods properly, how to figure rates, what classes of goods can be sent by parcel post, and all the rules governing the system.

Byron Armstrong was in Chicago Friday attending to matters of business.

SPARKS FROM THE FIRE WASTE.

The fire waste of the country is excessive, and is sapping its prosperity. Reduction of the fire waste is an important part of the campaign for the conservation of the national resources.

Fire losses in the United States and Canada in 1912 were $225,320,900, most of them due to carelessness.

Fire losses and the cost of fire prevention in the United States amount annually to $450,000,000, or more than the total American production of gold, silver, copper and petroleum in a year.

The cost of fires each year is one-half the cost of all the new buildin g erected in a year.

The annual per capita fire waste in the United States is $2.51, in Europe, 33c. Cause: The later has better construction, less carelessness, increased responsibility.

If buildings in the United States were as fireproof as in Europe, the annual cost of fire losses and protection would be only $90,000,000.

Of 4,676 known causes of fire in Chicago last year, 970 were due to the careless use of matches. Nearly ten thousand matches are scratched every second of the day in this country, every one a possible fire.

Over five thousand are killed and 50,000 injured annually as a result of fire.

The proportion of insurance capital to insurance liabilities is very much on the decrease. In the past forty years the liabilities have almost doubled, while only $30,000,000 more capital was invested in the business in 1913 than in 1879.

Be Sure— Be Satisfied

The man who gets "stung" in buying $30 Clothes for $17, usually has himself to blame, especially when it is possible for him to secure at a reasonable price, our splendid Hirsh-Wickwire Company Garments.

Sweaters and Mackinaws

Pennsylvania Sweaters and Summit Mackinaws are the very best made and prices low, the average sweaters $1 to $7; Mackinaws $5 to $11.50.

ECZEMA ON CHILD ITCHED AND BURNED

In Rash First. Could Not Sleep or Rest. Hard Crust Covered Neck. Awful Disfigurement. Cuticura Soap and Ointment Healed.

R. F. D. No. 4, Box 55, Holland, Mich.—"My child's trouble began by getting red and sore around her neck, and her face, behind her ears, under her arms, and different parts of her body were affected. The eczema appeared in a rash first. It was wet and looked as if it was sweaty. It seemed to itch and burn so that she could not sleep or rest. It got so bad at last that behind her ears was one crust or sore so that I had to cut her hair. There was a hard crust covering her neck. She could not have her clothes buttoned at all. I could hardly change her clothes. It caused an awful disfigurement for the time. She would cry when I had to wash her.

"We had her treated for some time but without success. The trouble had lasted about four weeks when we began to use Cuticura Soap and Ointment. I had not used them more than three days when I could see she was getting better. I got one cake of Cuticura Soap and one box of Cuticura Ointment and I had not used more than half of what I bought when she was all cured." (Signed) Mrs. G. C. Riemersma, Mar. 21, 1914.

Samples Free by Mail

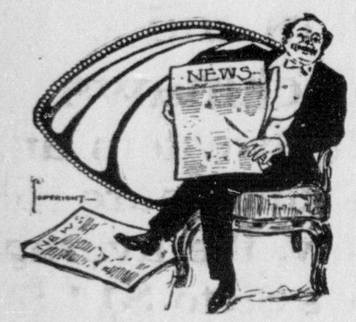

Although Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold by druggists and dealers throughout the world, a sample of each with 32-p. Skin Book will be sent free upon request. Address post-card: "Cuticura, Dept. T, Boston."

BRAVES TROUNCE PHILADELPHIA

BOSTON DEFEATS FAMOUS MACK CLAN BY SHARP, HEAVY AND TIMELY HITTING

RUDOLPH'S STERLING BOXWORK AND DEFENSE OF TEAMMATES LEAVES NO OPENING FOR ATHLETICS

Braves Play with Same Sensational Speed that Marked Their Rush from Last to First Place in National Race—Boston Excels Philadelphia in Every Department Except Fielding—Establish New Record by Driving Chief Bender to the Bench.

Attendance and Receipts.

Philadelphia, Oct. 9—The official figures for attendance and gate receipts and their divisions with the national commission, players and clubs is as follows.

Attendance—20,562.
Recepits—$49,639.
National commission's share—$4,963.90.
Players' share—$26,805.
Clubs' share—$17,870.10.
Each club's share—$8,935.05.

PHILADELPHIA, Oct. 9—Playing with the same sensational speed that marked their rush from last place to the position of penant winners in the National league, the Boston Braves crushed the Philadelphia Americans here today in the first game of the world's series by a score of 7 to 1. Although the newly constructed baseball machine of "Miracle man' Stallings wabbled once or twice, it never left the track and under the guiding hand of Pitcher Rudolph, clashed through Connie Mack's champion Athletics, scattering dismay and disappointment in its trail.

The victory over the 2 to 1 American league favorites, was well won, no lucky breaks or flukes figuring in the defeat of the famous clan. By sharp, heavy and timely hitting the Braves piled up an offensive lead which, coupled with Rudolph's sterling boxwork, and the general defense of his teammates, left no opening through which the Philadelphia club's attack could penetrate.

Braves Are First to Score.

The Braves were first to score, putting two runs across in the second inning. Whitted walked and scored on Maranville's drive to left center. The Athletics came back with a run in their half of the same inning, when McInnis was passed and scored on Strunk's single, which Moran let slip through his fingers for three bases. In the fifth, Gowdy tripled to center and came home on Maranville's short hit over McInnis' head. Boston clinched the game in the next inning scoring three runs on Evers' single, Connolly's pass, Whitted's triple to right and Schmidt's single which was too hot for Barry to hold.

Just to show that they could hit other pitchers besides Bender the Braves added another off Wyckoff in the eighth when Schmidt singled, went to third on Gowdy's one base drive and stole home as Maranville fanned.

Every Seat Is Filled.

Weather conditions were ideal for the play, the diamond and outfield being dry and fast, while a warm sun shone over head from a fleecy sky and made wraps unnecessary. Every seat in Shibe park was filled and several thousand spectators witnessed the contest from stands erected on house tops which overlooked the park. The bleacher stands filled almost immediately after the opening of the gates shortly before eleven o'clock, about 4,000 men and boys gaining seats beyond the outfield, while fully twice that number were turned away once the stand was completely occupied. At 1:30 there were still many vacant seats but as the hour of the game approached the late arrivals flocked in rapidly and hurried to their seats to the strains of the band and cheers of those watching the players in preliminary practice.

Band Leads Boston Rooters.

The finishing touch was added to the picture when the Royal Rooters, Boston's organized rooting corps, marched into the park headed by their own band and waving red and blue penants with the word "Braves" and an Indian head boldly outlined on the same. They even carried the idea further for several of the leaders wore full Indian regalia, including feathered head dress and tomahawks. The battle song, "Tessie' was sung repeatedly and the three hundred members of the corps cheered each telling Boston hit or play and encouraged the team in the crucial periods during the second and seventh innings when Rudolph wavered for a moment under the strain. When the game ended the Royal Rooters paraded around the field singing and snake dancing. They finally wound up in front of the Boston bench, cheering the team and players in real college football manner.

They had ever reason to be elated fro from analysis of cold figures the opening of the world's series of 1914 shows conclusively that the National league representatives were superior, both collectively and individually, in every department of the game, except fielding, where two errors were charged against the Braves, while not a single misplay marred the work of the Athletics. The victors scored seven runs, eleven hits and two errors to the losers one run, five hits and no errors.

Rudolph Fans Eight Athletics.

Rudolph fanned eight Athletics and walked three. Bender struck out three and gave two bases on balls while Wyckoff, who relieved him, fanned two and walked one Brave in three and two thirds innings. Heavy hitting honors went to the Boston team, who tallied sixteen bases with eleven hits to the Athletics seven on five hits.

Far more valueable than the capture of the first game is the confidence that came to the youthful aggregation of players gathered under the Boston banner when they saw the Athletics totter and then collapse under the vicious bombardment from the Braves bats. Tonight the National League combination actually feels the certainty of ultimate victory, which the players so valiantly proclaimed before the series opened. Untired in a world's series they have won decisively in their initial conflict and in winning established a new record, for with their bats they drove Chief Bender, the Athletics' surest money pitcher, to the bench, a feat no other club ever achieved against one of Connie Mack's twirlers in a world's series.

Fully 25,000 spectators saw the down fall of the Athletics and, while the defeat shortened the odds in the betting, it has not shaken the faith of the average local fan in the ability of the Mackmen to come from behind and conquer their younger and presumptious rivals. The official attendance figures gave the paid admissions as 20,562, while close to 5,000 additional spectators must have witnessed the play from points of advantage surrounding Shibe Park.

Individual Honors Go to Rudolph.

In the distribution of individual honors the lion's share went to Pitcher Rudolph for it was due in great part to the masterly manipulation of the ball that the Boston club emerged victor in the first game of the series. With the exception of two short periods during the contest he had absolute control of his delivery and a hypnotic effect on the Athletic bat swingers. He mixed speed, curve and slow balls in a bewildering fashion, cutting the corners of the plate and feeding his opponents his floater when danger threatened. It was this slow, deceptive delivery that proved the Mackmen's undoing for they are notoriously weak on this service and Rudolph was at his best in this respect today.

Bender, who opened for the home club, appeared unusually weak against the Braves and once they had seen his offerings they took liberties with the Indian that astonished the thousands of Athletic supporters who thronged the stands. Sizzling singles, doubles and triples rang off their bats, flashing over or through the infield until at last Connie Mack signalled the Chief to give way to Wyckoff and thus broke the record of never having removed a pitcher from a world's series. Coombs' withdrawal from the box in the 1911 series against the Giants was due to an injury and not to any faltering in his pitching game.

Mack is Not Discouraged.

After the contest Manager Mack said that Bender did not seem to be right and that he had little or nothing on the ball. Mack pointed out that the Athletics did very little work with the stick themselves and said that, while he looked forward to a hard series, he and his players were not a bit discouraged over the initial setback. He was asked if he thought his club would hit any better against the other Boston pitchers and came back with the characteristic answer: "I should hate to think that we won't."

Manager George Stallings of th Braves was greatly elated over the victory of his players. He said:

"Well, the boys did exactly what I expected of them and won on their merits. I hate to pull the 'I told you so stuff', but I guess that the fans are beginning to realize now that we have got a ball club of real class. When we started our rush in mid season it was generally predicted that we could not keep up the pace. The mourners have been waiting for us to croak ever since the end of July, but I guess that we can stand the strain of winning for a few days more at least."

Shortstops Maranville and Barry divided the fielding honors, each making a great running catch well out of their regular territory.

Manager Stallings got into an altercation with an ice man who wanted to place a bet on the Athletics in the lobby of a hotel shortly before the game, and the ice man was handed a stinging blow on the jaw. At this puncture other members of the Boston team interferred and hustled their manager into an elevator. The ice man left the hotel vowing vengence on Stallings.

HOW THEY STAND.

Federal League.

Club:	Won.	Lost.	Pct.
Indianapolis	88	65	.575
Chicago	87	67	.565
Baltimore	83	69	.547
Buffalo	80	70	.533
Brooklyn	76	76	.500
Kansas City	67	84	.444
Pittsburgh	63	86	.423
St. Louis	62	89	.411

WHERE THEY PLAY TODAY.

Federal League.
Brooklyn at Baltimore.
Buffalo at Pittsburgh.

YESTERDAY'S RESULTS.

World's Series.
Philadelphia, 1; Boston, 7.

Federal League.
Pittsburgh, 0-3; Buffalo, 1-0. (First game 16 innings. Second 6 innings dark.)
Baltimore, 5; Brooklyn, 4.

City Series.
New York Americans, 2; Nationals, 1.
Chicago Americans, 1; Nationals, 2.
St. Louis Americans-Nationals, rain.

BASEBALL CHATTER.

President Ebbets, the Brooklyn boss, has signed eight new pitchers, all of them right-handed.

The Boston Red Sox are the only team in either major league with a chance of winning every season's series.

Instead of the "Grand Old Master," as Christy Mathewson has been called in the past, New York fans now speak of him as "Old Matty."

Until this fall, Providence has not had a pennant winner since '05 the year Jack Dunn piloted the Grays to the Eastern league championship.

Pitcher Joe Engel of the Washingtons has been in no fewer than 29 games this season, in which he shared the flinging with from one to four men.

When it is remembered that a National league pennant has not been raised in Boston in sixteen years, it is easy to understand what a big hit the Braves have made in the Hub.

Captain Johnny Evers of the Braves will get into his fifth world's series when the Braves meet the Athletics this week. As a Cub John was in the big money in 1906, 1907, 1908 and 1910.

Keating and Fisher, the Yankee pitchers, had it on Ty Cobb when the Yanks met the Tigers in the last series of the season. Ty faced the New York pair seven times and failed to connect with a single hit.

It will be tough sledding for Manager Miller Huggins should Wingo, Magee and Dolan, three of the Cardinals brightest stars, jump to the Federals. The desertion of this Card trio would wreck the speedy machine developed by Huggins this season.

Football Notes.

No less than 13 players on the varsity squad at Harvard first gained prominence as Greater Boston school boys.

Andover has yet to select a captain for this season's eleven. Captain Callahan who was honored last Spring with the team leadership has not yet returned to the academy.

CUBS TAKE LEAD FOR CITY CHAMPIONSHIP

DEFEAT AMERICAN LEAGUE OPPONENTS 2 TO 1.

Contest Is a Grand Pitcher's Duel Between Humphries and Benz—Nationals Win Game in Fourth Inning When They Score Two Runs.

Chicago, Oct. 9—The Chicago Nationals went into the lead for the city championship today when they defeated their American league opponents 2 to 1. The game was a grand pitchers' duel between Humphries and Benz, with the latter having a shade the better of the argument, even though his side was defeated. He held his opponents to two scattered hits during his reign on the mound, when retired to make way for a pinch hitter.

The game was won by the Nationin the fourth inning. Good walked and went to second on an out. Zimmerman drove a single past second scoring Good and went to second on the throw home. Zimmerman proceeded to third when Collins' throw bounced over the catcher. Schulte sacrificed a fly to right and Zimmerman spurted home after the catch.

Zimmerman's error of Collins' grounder followed by singles by Fournier and Roth, gave the Americans their only run.

The Americans lost the game in the second inning when their captain was put out of the game. The bases were filled with two out and Weaver hit a sharp grounder to Derrick. Roth scored on the play, but Umpire Eason ruled Weaver out. He protested with the majority of the crowd on his side, and was ordered out of the game.

The series now stands 2 to 1 in favor of the Nationals. Total attendance, 17,377.

Gross receipts, $1,304.00.
Commission's share, $1,130.40.
Players' share, $6,104.16.
Each club's share, $2,034.72.

SEVERAL BIG GAMES OF CENTRAL STATES ELEVEN SET FOR TODAY

Two Inter-necine Classes in Big Nine and Annual Battle Between Michigan and Vanderbilt Provide Chief Features.

Chicago, Oct. 9.—Leading football games in the Central states on the schedule for tomorrow, with last year's scores include:

At Chicago—Northwestern, 0 vs. Chicago, 14.
At Urbana—Indiana, 0 vs. Illinois, 10.
At Ann Arbor—Vanderbilt, 2 vs. Michigan, 24.
At LaFayette—Western Reserve —, vs. Purdue—.
At Minneapolis—Ames, 0 vs. Minnesota, 25.
At Columbia—William Jewell—, vs. Missouri—.
At Lincoln—South Dakota—, vs. Nebraska—.
At Notre Dame—Rose Poly—, vs. Notre Dame—.
At Iowa City—Cornell College, 0 vs. Iowa, 76.
At Madison—Marquette, 0 vs. Wisconsin, 13.
At Des Moines—Grinnell, 0 vs. Drake, 20.
At Cleveland—Ohio State, 18 vs. Case, 0.
At Delaware—Cincinnati, 44 vs. Ohio Wesleyan, 3.
At St. Louis—Haskell, 39 vs. Christian Brothers, 10.
At St. Louis—Illinois Normal—, vs. St. Louis,—.
At Manhattan—Kansas Normal,— vs. Kansas Aggies, —.
At Lawrence—Emporia, — vs. Kansas, —.
At Lansing—Alma, 0 vs. Michigan Aggies, 57.

Two inter-necine classes in the big nine and the annual battle between Michigan and Vanderbilt provide the chief features in tomorrows football card in this part of the country. Other contests will serve as tests, in some cases severe, of the development of the leading elevens, Minnesota taking on a wrothy opponent, probably in Ames and Ohio, meeting an improved squad in Case.

Chicago's fast squad, with veterans in the main points and the prestige of its easy win over Indiana, should have no serious trouble with Northwestern. The development of the purple squad has been slow, but late reports indicate the defense has been improved, particularly with a view of stopping Dolly Gray's end runs. The Northwestern offense depends mainly on the hope that Hightower, now playing at half, will be able to gain ground substantially.

Since numbers of football followers believe that Illinois will be Chicago's chief rival this year, the Illini's score against Indiana tomorrow will be watched with interest as furnishing a basis for comparison.

The Vanderbilt and Michigan contest has assumed historic interest, it being a battle between teacher and pupil in Yost and McGuigan. Vanderbilt's big score against the Henderson's Brown team indicates a counting ability which worry the Wolverine a little, since Wolverine successful use of the forward pass last Wednesday showed they are vulnerable.

Wisconsin is expected to run over Marquette and Iowa should have no great difficulty with Cornell college. Purdue's showing against Western Reserve will be interesting to watchers of the conference race.

SEVERAL UPSETS POSSIBLE IN TODAY'S EASTERN GAMES

Harvard Faces Washington and Jefferson Team—Cornell Meets Carlisle Indians and Pittsburgh W. Plays Against the Navy.

New York, Oct. 9.—The eastern football schedule for tomorrow carries possibilities for several upsets, which should they eventuate, would make the day on the gridiron even more notable than last Saturday when Carlisle, Pennsylvania and Cornell all were defeated by the elevens of so-called minor colleges.

Harvard the intercollegiate championship holder, faces the Washington and Jefferson team and the invaders believed to be cherishing the idea that the overthrow of the crimson eleven is not beyond their strength. In view of the fact that almost every player of the strong 1913 combination is in uniform again, this appears to be a reasonable hope, especially since the showing of the eleven against Dickinson, which was defeated last Saturday, 105 to 0.

Cornell with two defeats already marked up against her, faces the Carlisle Indians. Last season the redmen won from the Ithica eleven 7-0, but the Aborigines have not shown form equal to that of 1913. Lehigh found little difficulty in winning from them last Saturday, 21 to 6, although Coach Glenn Warner did not have his strongest lineup in the game because of injuries.

Another conqueror of Cornell, the University of Pittsburgh, will play against the Navy and the result will be awaited with more than the usual interest which attaches to early season games. Like Washington and Jefferson, the Pittsburgh team includes a number of veterans, members of 1913 eleven which defeated Cornell, Carlisle and LaFayette and held the Navy to a no-score tie.

The Yale-Lehigh game at New Haven is expected to develop a closer contest than a year ago, when the visitors lost 37 to 0. The victory of Lehigh over Carlisle has caused a boom in South Bethlehem football stock but the invaders will be satisfied if they succeed in holding Yale to a close score.

Much the same condition prevails at Princeton where Syracuse will oppose the Tigers.

WORLD'S MARKET NEWS

WHEAT IS GIVEN DOWNWARD SWING

Announcement of Drop In Export Business Increases Bearish Sentiment

CORN AND OATS SAG WITH WHEAT

CHICAGO, Oct. 9.—Belief that advancing prices had checked European demand resulted todap in downward swing for wheat. The market closed nervous, ½c to ¾c under last night. Corn lost ½c to ½c@⅝c net and oats ⅝ to ⅝@½c. In provisions the outcome varied from 20c decline to a rise of 2½c.

Buying, supposed to be on foreign account, showed considerable activity after the wheat market had taken an early dip, the effect of ratheir heavy sales bya leading house, but the ensuing bulge appeared to leave quotations without support. Bearish sentiment was increased by announcement that exports from North America for the week had been nearly 2,000,000 bushels less than during the previous seven days.

Corn sagged with wheat. Wet weather had only a temporary influence in favor of the bulls. Besides, eastern cash call was slow and the fact received much comment that the first new corn of the season had arrived in Chicago a week earlier than was the case last year. In the oats crowd, the weakness of other grain had a depressing effect. Export sales were comparatively small.

Peoria Grain Market

Peoria, Oct. 9.—Corn ½c up; No. 2 yellow 71½; No. 3 mixed 71½; sample 70½.
Oats firm; No. 2 white 46.

ST. LOUIS LIVE STOCK MARKET.

National Stock Yards, Ill., Oct. 8.—Blakely-Sanders-Mann Company say: With a run of 8,500 hogs today, the market was fairly active at about yesterday's average prices, top was $8.25. Most of the good hogs brought $8.10 to $8.30; mixed grades $7.75 to 8c; rough packers around $7.25; lights, 130 to 160 pounds, 8c to $8.20; good pigs 7.85 to 8.10. Look for about steady market for the balance of the week, but believe that values will be lower in the very near future.

Cattle receipts were 6,000 today, about two-thirds of them natives, no good steers on sale. The beef steers show about 10c higher than they were Monday and yesterday, one string of 1500 pound steers, three car loads in all, brought $10.85. They were out of the same feed lot and of the same feeding as the drove that sold here Monday at $10.65, $10.75 and $10.85, but not nearly so heavy. The butcher heifer market is the dullest feature of our trade and has been that way since Monday, packers seeming very indifferent on the fair to medium fleshed grades, while the good fat, light, ridy kinds have sold not far from steady. The light weight calves, 450 to 500 pounds, that last week were selling at 9.25 to 9.50, have been going this week largely at 8.75 to 9c. Cow trade on the canners and cutters is about 10c higher than on Monday, all other kinds about the same level. Stocker and feeder trade 10 to 15c lwer, wing to the liberal supplies and weak country demand.

STATE H. S. VISITOR HERE.

H. A. Hollister of Champaign, state high school visitor, was in the city Thursday and addressed the students in the assembly hall at 3:20 o'clock. Mr. Hollister is chairman of the board of inspection of the North Central Association of Colleges and Secondary Schools and visited the local school to see whether or not standard requirements are being fulfilled.

Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have obeyed the highest and noblest of all sacrifices, the struggle for the life of others, should have a better idea of helpful influence than those who theorize from observation.

At any rate when a prospective grandmother urges her daughter to do as she did—to use "Mother's Friend," there is ample reason to believe it the right kind of advice.

"Mother's Friend" is an external application for expectant mothers. Its purpose is to furnish pliancy to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so apt to provoke or aggravate nausea, morning sickness, twitchings of the limbs and so on.

Although, in the nature of things, a woman would use "Mother's Friend" but but rarely, yet so effective has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradfield Regulator Co., 506 Lamar Bldg., Atlanta, Ga., and advertised by us for over forty years. This is a fine record for such a special remedy and the grateful letters received to-day are just as appreciative as were those of years ago notwithstanding that methods are supposed to have greatly advanced. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.

What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

SAVE YOUR SEED CORN NOW

There is no work a farmer can do at this time of year which will have a greater influence on next year's corn crop than that of selecting his seed corn.

There are several factors to consider in the selection of seed corn.

1. Select before a heavy freeze and only ears that are well matured.

2. Select ears from strong, vigorous stalks, having broad leaves, well developed brace roots, and with the ear at the right height on the stalk.

3. Select from full hills ears of medium size, well formed with plump, deep kernels and good tips and butt.

4. Select ears with tips hanging downwards, and avoid those with long shanks.

Corn, when first picked, will contain much moisture. To get rid of this moisture the corn must be placed where there is free circulation of air. The passage way of the barn is a good place to hang it, especially if the doors are left open. Do not hang it against the south side of a building in the strong sun-light or else the vitality will be injured.

After the corn is thoroughly dried out it should be stored away where it will not be subject to great changes of temperature. Corn will stand much cold if thoroughly dried out and kept in a dry, well ventilated place. If it contains moisture and is subjected to severe freezing, its vitality will be greatly impaired.

It is easily possible to increase the corn crops five bushels per acre by properly selecting and caring for the seed. This is too vital a matter to neglect. Select a good deal more than will be needed, so that a further selection can be made next spring.—J. E. Readhimer, Agricultural Advisor, Kane county, Illinois.

ANNOUNCING

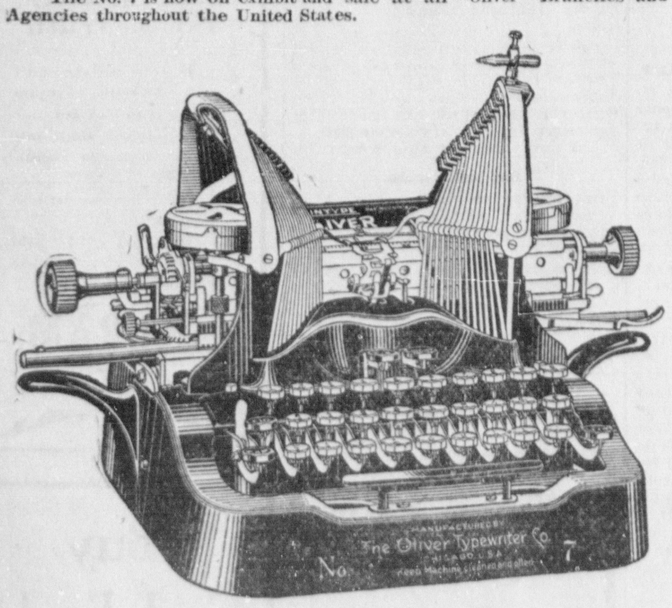

The New Typewriter ....OLIVER No. 7

WE ANNOUNCE AN AMAZING MODEL — THE OLIVER No. 7—a typewriter of superexcellence, with automatic devices and refinements that mark the zenith of typewriter progress. A marvel of beauty, speed and easy action. Typewriting efficiency raised to the nth power.

The OLIVER No 7 embodies all previous Oliver innovations and new self-acting devices never before seen on any typewriter. A leap in advance which places The Oliver ten years ahead of its time. So smooth in action, so light to the touch, so easyto run, that experts are amazed. A model that means to the typist delightful ease of operation.

A model that means a higher standard of typewriting, longer and better service.

The No. 7 is now on exhibit and sale at all Oliver Branches and Agencies throughout the United States.

The new model has more improvements, refinements and new uses than we can even enumerate here.

The "Cushioned keyboard" with "anchor keys" and the new automatic features mean less work for the hands, less strain on the eyes, less manual and mental effort.

With all of these masterly mechanical improvements we have made the machine more beautiful and symmetrical. From every standpoint The OLIVER No. 7 attains superlative excellence.

Nothing you could wish for has been omitted. The new devices, refinements, improvements and convnlences found on the No. 7 represent an enormous outlay and vastly increase its value—the price has not been advanced one penny. We shall even continue in force our popular 17-Cents-aDay purchase plan, the same as one previous Oliver models.

The OLIVER No. 7 is equipped with famous Printype, if desired, without extra charge.

You owe it to yourself to see the new machine before you buy any typewriter at any price. Note its beauty, speed and easy action, its wonderful automatic devices. Try it on any work that is ever done on typewriters. Try it on many kinds of work that no other typewriter will do.

I is a significant fact that the typewriter that introduced such epoch-making innovations as visible writing, visible reading, Printype, etc., should be the first to introdu automatic methods of operation.

The OLIVER Typewriter Co.

Agricultural News Valuable to Farmers

THE CORN BELTER

Edited by the Department of Publications, University of Illinois.

Regular Weekly Feature of the Jacksonville Journal.

SWEET CLOVER WILL IMPROVE THE SOIL

FEW RECOGNIZE ITS POSSIBLE AGRICULTURAL VALUE.

Better Stands of Sweet Clover Are Obtained by Inoculating Soil—Will Not Grow in Acid Soil—Is a Valuable Crop.

(By Prof. J. G. Mosier, Soil Physics, University of Illinois.)

There are many indications that the acreage of sweet clover seeded the coming season will be larger than ever before and some information regarding this crop may be of some benefit at this time.

Sweet clover has been growing for many years along our roadsides, ditches and in waste places. Only a few men have recognized its possible agricultural value. By most farmers it was looked upon as a very undesirable weed and that it must be kept out of our cultivated fields at all hazards. The great surprise has been that it has not spread into our cultivated fields to any great extent, due probably to lack of inoculation and the ease with which it is killed by plowing.

Sweet clover is a legume and is found generally distributed over Illinois with the exception of the southern unglaciated area and the lower Illinoisan glaciation. There are two species found in the state, both of which are biennials and cultivated to some extent.

The white flowered species (Melilotus alba) is most common and the most desirable on the farm because of the larger productiveness both organic matter and seed. The yellow flowered species (Melilotus officinalis) is found in various places of the state but is not so commonly distributed as the other and is not as desirable for the farm. Other species are known but require no attention here. The two species mentioned differ in their habit of growth, the yellow being more diffuse or spreading.

Soils.

Sweet clover will grow on almost any kind of soil that is not acid and that is fairly well drained provided the proper bacteria are present. Acidity is fatal to sweet clover especially if this is present in any considerable quantity. It will not do well on soils that are even slightly acid. It grows vigorously on abandoned limestone quarries, gravel pits and on stony hillsides when there is an abundance of limestone present, and is to be found growing on practically every type of soil in the northern two-thirds of Illinois. These soils embrace stony loams, gravelly loams, sands, sandy loams, silt loams, clay loams, clays, peaty loams, and peats. It even grows on alkali soils where it is difficult or next to impossible to grow grain crops. A soil never becomes so poor that sweet clover will not grow provided limestone and the proper bacteria are present. It will grow luxuriantly on gullied and eroded hillsides that are so low in organic matter that nothing else will grow. Hence, it is a most important plant for the improvement of these waste lands. The thousands of acres of abandoned eroded land could be improved better by sweet clover than any other crop.

Sweet clover is as sensitive to acidity in the soil as alfalfa and the same soil treatment is required as for alfalfa. To put the soil in good condition to grow either alfalfa or sweet clover, three or four tons of ground limestone per acre should be applied to most of the soils of southern Illinois. In the central and northern part of the state practically all of the timber soil and the rolling part of the prairie land is acid or becoming so and one or two tons of limestone are necessary for complete succes with sweet clover. Many failures from lack of limestone will be made that will be attributed to other causes.

Inoculation.

Sweet clover being a legume requires the presence of certain bacteria in the soil to produce satisfactory results. This organism has been pretty generally distributed along the roadsides with the mud carried on vehicles and on bottom lands by floods. The higher cultivated lands of the state do not generally contain this germ so inoculation is necessary. Either one of two methods may be employed: 1. Soil transfer method: Soil is obtained from where sweet clover or alfalfa has grown the past year and scattered over land to be seeded, at the rate of from 300 to 500 pounds per acre. This may be done with a shovel. The harrow should follow immediately to cover the soil and prevent the sunshine from destroying the bacteria and also to distribute them somewhat uniformly through the soil.

2. Glue Solution Method: In this method the infected sweet clover or alfalfa soil with its bacteria is glued to the seed and inoculation produced in that way. About seven ounces of furniture glue should be dissolved in a gallon of hot water, which, when cool, should be sprinkled on the sweet clover seed at he rate of about one quart to a bushel of seed. The seed should then be stirred so as to moisten it uniformly. About three quarts of the dry, pulverized soil should be added and thoroughly mixed with the seed. If the work has been well done each seed will have a coating of soil around it. The seed should be dried and is then ready for sowing. A safe precaution to be taken is not to allow the sun to shine on seed before it is covered.

The fact that sweet clover is growing luxuriantly along the roadside does not necessarily prove that the adjoining fields contain the proper bacteria. It is always well to make sure and inoculation is one of the conditions that must be complied with in order to be reasonably sure of securing a stand.

UNIVERSITY STUDENT TELLS OF AGRICULTURE IN PALESTINE

Soil Fertility Has Greatly Declined as Result of Fifty Centuries of Grain Farming.

(An extract from an article by Salim R. Farah, '16, University of Illinois.)

Editor's note—Mr. Farah was born in Nazareth, Palestine, and received his preliminary education in Jerusalem. Later he attended the Protestant Syrian College in Beirut, Syria. He has been in America two years and is spending his second year at the University of Illinois.

There is no place in the world where so great a variety of soil and climate occurs in such a small area as in Palestine (its total area is 14,000 square miles). At Mount Hermon snow falls almost continuously from late October to early April and covers the ground until midsummer, while sixty miles south of that, in the vicinity of the Dead Sea the climate is typically tropical in all respects. The climatic conditions vary with altitude and the weather districts are seaward and desertward.

The cultivation of grains was and still is confined mainly to the plains. Wheat is the chief grain. Barley is given to horses and is regarded as a despised food of the poor in time of necessity. Oats were never grown, spring oats are not likely to flourish there. Millets were common in ancient days while dourra is quite common now.

Agriculture in Palestine as in many other of its neighboring countries, is still in a crude state. It was going backwards ever since the fall of the rule of the Arabs, until today it is in a very poor condition. "What is the cause of this poor condition" is a question too often asked by investigators who read about, or visit the country. Why is it that the country, so famous in history for its productivity, is now in a desolate condition? From reading Dr. Hopkins' book, "The Story of the Soil", one might be inclined to conclude that the decline in fertility is the main factor that is responsible for the present poor condition. Though the decline in fertility had a considerable effect yet it seems minor in importance when compared to other reasons. Bad political conditions and lack of security, in the last few centuries, brought more devastation on the agriculture of the country than all other causes put together. However, improvements in the last few years, though slow, are very encouraging and there is a great hope in the future.

Next in importance is the ignorance of many vital laws of agricultureal physics on the part of the farmer, that causes a great deal of waste. The proper management of soil moisture is by far the most vital and dominant factor in the agriculture of the country. There is enough moisture for good yields in most parts of the country and plenty for irrigation purposes, yet crops in general suffer from drought most of the time and irrigation is poorly practiced on very small areas. What increases the difficulty is that the problems are distinct for each locality.

I might put third the decline in soil fertility, but I hesitate to make any statement in this regard. The conditions seem to me very complicated at present.

Undoubtedly the country was farmed almost continuously for over fifty centuries, mainly grain farming. I feel confident to say that mineral fertilizers were never used. There is no Arabic word for "fertilizer" and from the history of the country since the rule of the Arabs, I could not find any statement about it. So it seems fair to conclude that it has never been used or even known. Barnyard manure was used very sparingly, mainly for fruit trees, vines and vegetables. I do not think it has ever been used directly on grain fields. Also when we take into consideration the fact that manure is dried and used for fuel by the Arabs and the farmers, you can see that little manure is left to be used as a fertilizer.

Practically every farmer's family has a sort of an oven called Tahoon. It consists of a cavity the walls of which are made of burnt clay, this is put in a small shed by itself, where it is surrounded by hot ashes and burning manure. The heat is is conducted through the walls to the inside where the bread is baked. This has to be kept hot all the time and dried manure is its chief source of fuel.

NOTICE TO ALL VOTERS.

Notice is hereby given to all voters that the first day of registration is Tuesday, Oct. 13th. You do not have to appear in person to register on this day. The final day of registration is Oct. 27th and it is necessary to appear in person to register on this final day.

Phyllis Neilson Terry will begin her American tour as Viola in "Twelfth Night."

AGRICULTURE AS A VOCATION

MANY ADVANTAGES TO THOSE WHO MAKE SPECIAL PREPARATION.

Field Offers More Opportunities for Service, Less Crowded by Competition, and with More Attractive Salaries than in Other Lines of Work.

(By A. W. Nolan, Assistant-Professor in Agricultural Extension, University of Illinois.)

Our young friends who are entering high school again or for the first time will be or should be thinking seriously of their life's vocation. Some have said that high school boys and girls are not old enough or mature enough to choose a vocation, but whether they finally enter the work they first choose or not matters not so much as the desire to feel responsible for some of the important work the men and women of the world are doing. To get the habit early of choosing a vocation is the important thing.

It is not the purpose of the writer in this article to encourage any misfits into this great field of promising vocations, but to encourage those in the high school who love country life and who may be considering agriculture as a vocation. As educational progress finds its way into our high schools, agriculture, domestic science, and other industrial subjects will become a part of the course and our young people have the opportunity to choose vocations along industrial lines and be prepared to enter them with hopes for success and reward.

By thus calling attention to the unusual advantages offered to those who make special preparation in agriculture, I do not wish to minimize the importance of other school courses. It is true at present, that those who are thoroughly prepared in agriculture find more opportunities for real, needed service, less crowding by competition, and more attractive salaries awaiting them, than are offered to graduates from the old established courses. The following are some of the "big fields" of opportunity in agriculture as a vocation:

1. There are over six million farms in the United States. A large percentage of these farms are only about 50 per cent efficient, and there are large areas of unproductive land ready to give wealth to the man who applies to them the magic of science. A scientific farmer who owns his land, is always in a position to make an independent living and to assume leadership in his community.

A study made in an eastern state shows that the farmer with a college education actually made $529 per year more than his neighbor who had no scientific training. The business of farming is, therefore, one of the most attractive and promising vocations which is drawing thousands of our high school and college graduates out into the open country to find life and independence.

2. Six thousand teachers of agriculture are needed. Here comes an attractive call to those who care to teach. Every year adds hundreds of high school and colleges to the list of those calling for teachers of agriculture. The state universities employ more than 2000 teachers of agriculture while the experiment stations in 43 states have on their staff, over 1000 experts in agricultural subjects. The salaries of teachers of agriculture are considerably above those paid to teachers in other subjects.

3. The United States Department of Agriculture employs many experts, and is requiring more each year. It requires a whole army of men in the offices and extension fields of the government to carry on this rapidly growing department of agriculture.

4. Big business is making great demands for experts in agriculture. Many wealthy men and corporations own extensive tracts of land, orchards, cattle ranches, truck farms, forests, etc., for which they must have high salaried expert superintendents. Railroads, banks, and numerous business organizations are employing agricultural experts to help other agencies to promote better farming.

5. Hundreds of counties all over the United States are organizing to employ agricultural experts to advise with the farmers of the county in the matter of soil improvement and other problems of scientific agriculture. These advisers are paid from $2000 to $4000 annually, and there will soon be thousands of such men in demand.

All this is written to cause high school boys to "think twice" before deciding to leave the farm for a vocation among the crowds in the city.

KERNELS FROM CORN BELT
(By Sol R. Quizer.)

Our men are mowing down grain. Across the sea, men are mowing down men.

Go easy with the pruning knife this fall when you prune the shrubs and vines that bloom in the spring. You are likely to remove the blooming buds as such plants bloom on wood produced the previous year.

He wrote poems till the family
Would no longer wear old duds.
Then he up and made a fortune
But he made it raising spuds.

DR. E. O. GABLE IS HAVING GREAT SUCCESS IN JACKSONVILLE

He Will Be at the Dunlap Hotel from 9 A. M Monday, October 12, Until 3 P. M. Wednesday, October 14

He Offers Consultation FREE to All Sufferers

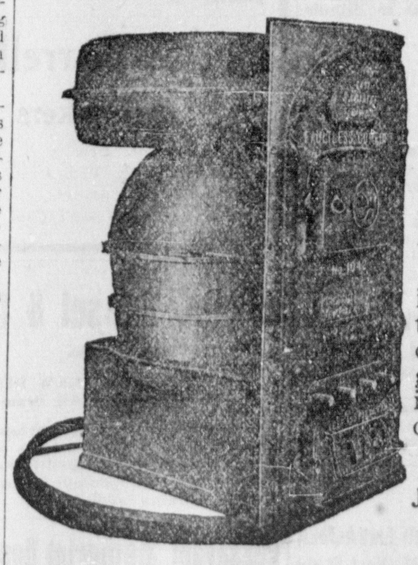

DR. EDWIN O. GABLE
Neuropathic Specialist

There are hundreds of people who are suffering with either acute or chronic rheumatism in some form, neuralgia, sick headache, uric acid troubles. There are hundreds of people suffering with weakness of the heart. Ninety per cent of these people have had no organic disease, but just a functional trouble; yet if it is let alone it may produce organic disease and early death. Palpitation, shortness of breath, irritated heart action, dizzy spells, pain around the heart, fainting spells, bad circulation, cold hands and feet—all these symptoms indicate a weak heart and weak circulation through it. There are thousands of people suffering with weakness of the kidneys. They go on allowing it to gradually grow worse, allowing the kidneys to be clogged up, allowing them to become congested and inflamed and finally the little tubules are destroyed completely, producing Bright's disease and death because the poison and waste matter that should be thrown off of the system through the kidneys is absorbed back into the blood, producing a slow form of poison that destroys nerves, muscles and vitality. In the early stages of kidney troubles, it may only show by an irritated bladder, burning or backache, or simply weakness. But whenever this organ is not acting normally, you should have it treated immediately, because it may be very serious if you do not stop it. The kidney is the sewer of the body and must be kept open. I call especial attention to these symptoms for the reason that my Neuropathic system of treatment has a quicker effect on such conditions as these than most other treatments. It acts directly on the nerv ous system, circulation of blood, kidneys, bowels, liver and skin. I can give almost immediate relief to most cases of this kind if the patient will follow my advice and my treatment a reasonable time. My Neuropathic system cleanses and purifies the blood, it relieves the weakness and congestion about the heart, relieves the pressure in the small capillary blood vessels so that the blood, when it leaves the heart, can go out naturally into the muscles nerves and extremities; and when that commences, the disease deposit rapidly absorbs and disappears. I want every one suffering with these troubles to call on me this trip. I will make a complete examination and tell you exactly the condition you are in and if the disease has not gone too far I will give you almost immediate relief. To prove this I will give consultation and examination free to every person who calls on this trip. I want to give you no excuse to go ahead and suffer with these troubles. There is no reason why you should suffer day in and day out with every change of weather with rheumatism. There is no excuse for you to quietly sit down and allow your weakness of the heart and the kidneys to gradually grow worse and become an organic disease when you know if you wait too long until the internal tissue of the organ is destroyed, then nothing can be done. My Neuropathic system of treatment has the most immediate effect on these cases. I want to prove it to you. All I ask of you is to come and see me. You can not refuse this offer. Be sure to call on me and let me examine you and explain all these things. Remember I treat all curable chronic weakness and disease, no matter of what organ. My Neuropathic system of treatment has given relief in many cases when all others failed. I use no strong, poisonous medicines. This is a combination of treatment both internal and local. You have never used anything like it. I want to explain this to every man, woman or child suffering with chronic disease or weakness on this trip. Remember, I accept no case by mail. I must make a complete examination of the case first. I do this for you free of charge on this trip. I will be at the Dunlap hotel from 9 a. m. Monday, October 12, until 3 p. m., Wednesday, October 14.

IMMEDIATE DANGER TO WHEAT FROM THE HESSIAN FLY

All Volunteer Wheat Should be Destroyed at Once—State Entomologist Issues Statement.

The wheat crop sown this fall in Illinois is in immediate danger of very serious injury by the Hessian fly unless the volunteer wheat now growing in old stubble fields and on field borders is promptly destroyed by plowing under, or at least by a thorough disking of the ground. This volunteer wheat is very heavily infested, throughout the state, by an early generation of the Hessian fly, which is now in all stages from the young larva or maggot to the winged insect, and is just beginning to emerge and lay its first eggs on the leaves of the young wheat of the regular sowing. If this early generation of the fly is all allowed to come to maturity on the volunteer wheat it is certain to infest the new wheat heavily this fall; while if it is destroyed with the wheat plants in which it is developing, the danger of loss from Hessian-fly injury will be greatly diminished. The sooner this work is done the better. Not only the individual wheat grower, but the community and the country generally are affected by this situation, for the Hession fly spreads rapidly, and the emerging insects are a general menace.

Famers should "get busy" at once in plowing under all volunteer wheat.

Stephen A. Forbes,
State Entomologist.

IF MEALS HIT BACK AND STOMACH SOURS

"Pape's Diapepsin" Ends Stomach Misery, Indigestion in 5 Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomache headache, you can get blessed relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dypepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.—Adv.

TRI-STATE MEDICAL SOCIETY.

Dr. C. C. Cochran expects to leave Monday for Des Moines, Ia., to attend the twenty-second annual meeting of the Tri-State Medical society of Iowa, Illinois and Missouri. The sessions will be Tuesday and Wednesday and will be addressed by a number from this state. Among the Illinois doctors on the program are Dr. Edwin P. Sloan of Bloomington, Drs. A. M. Corwin, Finley Ellingwood, C. L. Wheaton and Bertha Van Hoosen of Chicago, and Dr. H. H. Fletcher of Winchester. The subject of Dr. Fletcher's paper is "Nephro-li-thiasis, Diagnosis and Treatment."

REPUBLICAN STATE CANDIDATES TO MAKE TOUR

Will Travel on Special Train and Visit Practically Every County in State in Nine Days.

The Republican State Central committee has issued a pamphlet giving the itinerary of the special train which will convey the various candidates on the ticket into practically every county of the state during the nine week days beginning with Monday, Oct. 12.

The train will leave Chicago Monday at 6:30 a. m. and nineteen stops will be made that day closing with the night meeting at Rock Island. Tuesday the first stop will be at Fulton and the night meeting at Aurora, twenty stops scheduled for the day.

The itinerary will be continued as follows, Wednesday, Oct. 14th, twenty-two stops, first at Elburn and last at Joliet; Thursday, Oct. 15, twenty-three stops, first at Wilmington and last at East St. Louis; Friday, Oct. 16th, sixteen stops, first at Caseyville and last at Duquoin; Saturday, Oct. 17th, eighteen stops, first at Centralia and last at Peoria; Monday, Oct. 19th, twenty-one stops, first at Washington, last at Danville; Tuesday, Oct. 20, twenty-one stops, first at Westville and last at Bloomington; Wednesday, Oct. 21st, twenty-one stops, first at Dunlap and last at Quincy.

The candidates who will make up the party are the following:

Senator Lawrence Y. Sherman, candidate for U. S. Senator.

Andrew Russel, candidate for State Treasurer.

Prof. Francis G. Blair, candidate for Superintendent of Public Instruction.

Chas. W. Vail, candidate for Clerk of the Supreme Court.

B. M. Chiperfield, candidate for Congressman-at-large.

J. McCann Davis, candidate for Congressman-at-large.

A. P. Grout, candidate for University Trustee.

Mrs. Laura B. Evans, candidate for University Trustee.

Dr. J. T. Montgomery, candidate for University Trustee.

Franklin S. Catlin, candidate for Clerk of the Appellate Court, 1st District.

Christopher C. Duffy, candidate for Clerk of the Appellate Court, 2nd District.

George L. Tipton, candidate for Clerk of the Appellate Court, 3rd District.

Chas. C. Johnson, candidate for Clerk of the Appellate Court, 4th District.

INTERSTATE BILLIARD LEAGUE

Chicago, Ill., Oct. 9.—Arrangements have been completed for the opening of the season of the Interstate Three-Cushion Billiard League next Monday night. Thirteen cities are to be represented in the league this year, the circuit having been doubled in size. Chicago, St. Louis, Cleveland, Pittsburgh, Detroit, Milwaukee, Indianapolis and Buffalo were the members last year. Chicago and Cleveland will each have two representatives.

The new cities are Kansas City, Cincinnati, Toledo, Rochester and Buffalo. Johnny Kling, former Chicago baseball player, and who will represent Kansas City, and Jerome Keough, former champion pocket billiard player, are the most noted of the new players, although Pierre Maupome, the Mexican, who will represent Philadelphia, is almost as well known.

Chicago will be represented by Charley Morin and Jess Lean. Another Chicago player, Charles LeGros, will be seen in action. He expected to be biggest three cushthe prize money approximated $800. This year it will total nearly $3,000. The greatest portion of this amount has been donated by the roomkeepers of the league. An additional $300 has been added for forfeit money to enable the winner to challenge the holder of the world's three-cushion title. August Kieckhofer, who won the championship last year, again will represent Milwaukee.

CREPE DE CHINE BASQUE DRESSES WORTH $20 TODAY, $10.95.

NORTHWESTERN ROAD CONGRESS

Milwaukee, Wis., Oct. 9.—Delegates have been appointed to represent the States of Illinois, Iowa, Michigan, Minnesota, Wisconsin, North and South Dakota at the Northwestern Road Congress which is to assemble in this city the latter part of the month. Addresses will be delivered by the State highway commissioners of each of the States. A complete programme for the congress is now being prepared by President T. R. Agg, of Amos, Iowa. A large and comprehensive exhibition of road building machinery, equipment and material will be held in conjunction with the congress in the Milwaukee Auditorium, which affords more than 70,000 square feet of floor space for exhibition purposes and seating capacity for 10,000 people.

C. & A. SURGEONS' MEETING.

Dr. Carl E. Black and Dr. A. L. Adams were Jacksonville representatives at the meeting of the C. & A. Surgical association Friday and today. Both physicians read papers, Dr. Adams on "The Immediate Care of Injuries to the Eyeball," and Dr. Black on the subject, "A Plan to Prevent the Loss of Instruments and Sponges During Surgical Operations." Dr. Adams expected to remain for the entire conference and Dr. Black planned to return after the first day.

Not Too Early to Talk Blankets

Like the thoughtful Germans we believe that in time of peace prepare for war—"Cold weather will be here soon", Cotton Blankets will be scarce this season. Reports just received say that the warring countries of Europe are buying all the blankets they can in the United States. It is said that one big mill has sold its entire production.

Our line of Blankets is very complete.
No war prices here.

MORTUARY

Stellte.

Ferdinand Stellte died at his home in New Berlin at 2 o'clock Friday afternoon after a prolonged illness. He was well advanced in years and was one of the oldest residents of the community.

Mr. Stellte is survived by four daughters, Mrs. Samuel Gentrey, with whom he made his home; Mrs. Theodore Freitag and Mrs. Fred Deters, New Berlin, Mrs. Joseph Ridder, Alexander, and his son Joseph Stellte, New Berlin.

The funeral will be held Tuesday morning from the New Berlin Catholic church, of which the deceased was long a faithful member.

CRITICAL MOMENTS.

What the War Teaches.

Every life has its critical moments. There are times when a man's health is staked upon the care he gives to it within a few hours. His system may be run down, blood laden with billious poison and lungs or skin affected.

Twenty-four hours after you start to take Dr. Pierce's Golden Medical Discovery, poisonous matter and blood impurities begin to leave your body through the Liver, Bowels, Kidneys and Skin.

So powerfully penetrating is this purely vegetable remedy that through the circulation of the blood it reaches every fibre, muscle and joint, dissolves the poisonous secretions and drives them out of the body.

It brings new activity to the liver, stomach and bowels in a short time, thus causing sallowness, indigestion and constipation to disappear.

It enters the tiny blood vessels of the skin, bringing with it fresh vitalized blood, and abiding faith in its wonderful cleansing power has come to thousands, when pimples, boils, carbuncles, rash, eczema, acne and other skin troubles dry up and disappear.

Good blood means good health; good health means strong men and women, full of vigor and ambition, with minds alert and muscles ever willing. Any medicine dealer will supply you with Dr. Pierces Golden Medical Discovery in either liquid or tablet form. Remember it is purely vegetable, and free from alcohol or narcotics and is not a secret remedy for all its ingredients are published on wrapper.—adv.

NO ARCADIA BURGOO.

Bad weather Thursday caused the indefinite postponement of the A. H. T. A. picnic and burgoo at Arcadia. The materials had been collected before proceedings were stopped by rain.

Wild Rose creamery butter has the quality of being uniformly good.

SOCIAL EVENTS.

The Foreign Missionary society of Murrayville Methodist church met Saturday with Mrs. S. A. Bracewell. The regular study of the class was taken up and a social hour followed the work and a splendid dinner was served.

Rally Week at the State street church last night partook of a general social time, the hours being delightfully spent. Light refreshments were served.

A slumber party was given Friday night by Miss Marie Megginson, of Woodson. The first part of the evening was spent in playing various games and with music. A number of flash light pictures were taken. The house was decorated in red roses and green foilage. At midnight a two course luncheon was served. The guests present were Misses Marguerite Steinmetz, Ellen Harney, Claribel Megginson, Marie Megginson of Woodson, and Misses Helen Strandberg and Nell Clampit of Jacksonville.

The Missionary society of Grace M. E. church met with Mrs. E. T. Fox, Friday afternoon, at her home, 617 West College avenue. About fifty members were present and light refreshments were served after the program and social hour.

A reception was given by the Methodist Episcopal church members of Franklin Friday night in honor of their new pastor, Rev. E. S. Vorbeck. The time was spent socially and light refreshments were served.

MUST USE OWN NAMES.

London, Oct. 9.—By a "special order in council" issued tonight any Germans or Austrians engaged in business here who since the outbreak of the war have adopted English names will be required after October 12 to resume the use of their own names. Until further notice, says the order, no "alien enemy" will be allowed to change his name without a special permit from the secretary of state.

T. P. A. meeting tonight.

TEMPORARILY SUSPEND DUTIES

Vienna, Austria, Oct. 9—via Amsterdam and London—The government today gave notice that the collection of duties on corn, flour and vegetables entering Austria had been temporarily suspended.

Wild Rose creamery butter has the quality of being uniformly good.

FILES PROTEST AGAINST THE ALLEGED RAVAGES OF GERMANS

Message from Belgium Foreign Office Says Prussian Army is Getting Ready to Let People Starve.

Washington, Oct. 9.—The Belgian minister filed with the state department today a protest from his government against the threatened famine in Brussels, claimed to be due to the ravages caused by the German army. The message from the Belgian foreign office and filed with the department says:

"The civil authorities of the Brussels agglomeration inform the government that Brussels faces famine. Violating once more the rights of mankind and namely, article 43, of the Fourth convention of The Hague, the German army, after having taken away from the people an important part of its resources is geting ready to let it starve. The same information is coming from Namur and Luxembourg.

"The Belgian government protests with the utmost indigation against this revolting act of barbarism and brings it to the knowledge and the appreciation of the civilized nations."

"The Brussels agglomeration," is the name given to the city proper and the surrounding suburbs which are formed into one civil community.

T. P. A. meeting tonight.

UTILITIES COMMISSION DENIES APPLICATION FOR INCREASE

SPRINGFIELD, Ill., Oct. 9.—The application of the railroads of the state for leave to increase the rate five percent on intra-state grain shipments was denied by the Illinois Public Utilities Commission. The case had been pending for a year, being instituted duirng the life of the old railroad and warehouse commission. At a hearing held some months ago grain men were here from all parts of the state and presented a vigorous protest against the proposed increase.

WITH SICK PEOPLE.

Mrs. Walter Wheeler of Sinclair, who has been very ill for some time, is now at the home of Earl Wheeler on Lafayette avenue, under the doctor's care. Her many friends wish her a speedy recovery.

Miss Martha Schaub of North Main street, who for the past month has been ill with typhoid fever at Our Savior's hospital, is much improved and will be able within a few days to return home.

John Nunes of 760 West Railroad street was taken to Passavant hospital Friday.

Knoles clothing, the O. K. kind.

FUNERAL OF ARCHIE DAWSON TO BE HELD THIS MORNING

Remains Identified by Father Friday Morning and Brought to City Via 5:30 C. & A. Evening Train.

The remains of Archie Dawson, accompanied by Harry Dawson and T. C. Patton, arrived from Nebo via the 5:30 Chicago & Alton Friday evening and were taken to the undertaking parlors of W. W. Gillham. Positive identification was made Friday morning when Mr. Dawson saw the body of his son, who the day before met death under the wheels of an Alton train on a steep grade east of Nebo.

The funeral will be held this morning at 10:30 o'clock from the undertaking parlors and burial will be made in Diamond Grove cemetery. Service will be in charge of the Rev. M. L. Pontius, pastor of Central Christian church.

The unfortunate young man was the son of Harry and Elizabeth Dawson and had spent his life in Jacksonville. He is survived by two brothers, Henry of LaCrosse, Wis., who may reach Jacksonville in time for the funeral, and Thomas Dawson, residing in North Dakota.

SPECIAL SALE: REMARKABLE BARGAINS TODAY IN ALL DEPARTMENTS AT HERMAN'S.

HELD CAMP FIRE.

The members of Matt Starr post No. 378, G. A. R. met Friday evening in regular session in their headquarters on West Morgan street with a large assemblage of members and visiting brethern present. After the routine business had been transacted a camp-fire was held, and it proved a very enjoyable occasion.

Short and interesting talks were made in which the speakers recounted incidents which they recalled of their experiences in the army life through which they passed a half century ago. Their remarks were colored with scenes, both of pathos and humor, some of them bringing to memory times of sadness and mirth. The evening's enjoyment was such that it was decided to hold another camp-fire on the evening of Friday, Oct. 23. Those who took part in the speaking were Capt. J. A. Schaub, commander of the post, John Minter, Major C. E. McDougall, adjutant of the post, L. R. Penfield, Alex Armstrong, Capt. J. E. Wright and George Faul.

Try that Peaberry Coffee at 25c per pound. Its fine. Claus Tea Co.

TO ATTEND FUNERAL.

Mrs. N. R. Whorton of West North street left Friday for Gallatin, Mo., to attend the funeral of her brother-in-law, James Van Dyke.

Remember that for style and fabric you cannot excel the clothing that Knoles offers.

SOUTH SIDE CIRCLE MET.

The South Side Circle met Friday afternoon with Mrs. W. L. Robertson, on South Main street.

The subject for the afternoon was "The Coming Atlantic Ocean Flight, Preparing for War in the Air." A paper prepared by Mrs. George Fuhr was read by Mrs. A. W. Baldwin.

Mrs. Day, the new instructor of violin at the Woman's college was present and gave an informal talk, telling of some of her experiences while on a concert tour through Russia. Mrs. Day only returned to America last April after spending four years in teaching and concert work in Russia and Germany.

A social hour followed the program and delicious refreshments were served.

The next meeting will be with Mrs. J. W. Sperry.—Mrs. Buchthorpe, press correspondent.

See our fall line of sweet grass and Mexican baskets, Wilmert's.

A Junior Kitcheneed **FREE to Some Little Girl**

Has all the quality and features of the regular sized Kitcheneed, such as disappearing roll curtain, sliding metal top, glass sugar jar—everything as shown in the picture.

How to Win the Junior Kitcheneed

In some small booklet get the names and addresses of women who would like to own a kitchen cabinet. For every one of these you will receive a Stamp good for 10 Votes. For every one of these that buys a Sellers Kitcheneed during the contest you will receive a Stamp good for 100 Votes. Another way is to get 10 votes of different dates, one of which is printed here, from the Daily Journal or Courier, or by calling at the store on the day following their appearance. For 10 of these votes we will give a ten vote stamp. The little girl who has the greatest Total Number of Votes at the end of the contest wins this Big Special Prize. Contest to run until October 17. Will you be that little girl? It is easy to get this wonderful prize.

Some little girl in your community, maybe your own daughter, is going to be trying very soon to become the owner of this delightful possession. Help that one little girl that you most want to see satisfied to the utmost, get this wonderful thing.

A Sellers Kitcheneed Kitchen Cabinet, "The Kitcheneed Junior Special" is the name of it and it is an exact duplicate of the "Sellers Kitcheneed Special." It will have the same quality and features that have made "Sellers Kitcheneed", "the Better Kitchen Cabinet." The only difference will be in this, that the Sellers Kitcheneed Junior Special will be only two-thirds the size of its parent, "The Kitcheneed Special." That will bring it high enough for a little girl to work at exactly as her mother works at hers. Every one of these convenient features will be exactly the same as on the larger Cabinet but smaller in proportion.

The little girl friend will be working to get this Junior Cabinet in this way.

You can help to get this delightful possession for your daughter or faforite child friend. Give her whatever assistance or encouragement among your friends you can. The youngster will be tickled beyond measure if she succeeds, and the possession of the cabinet may prove to be a very good influence upon her play, and the channel into which her thoughts are directed.
